

WORKSHEET

Weather Reports

Work in pairs. Imagine you are weather forecasters. Student A prepares a weather report for Bali for the next seven days and Student B prepares a weather report for Sumatra. Use the prompts below.

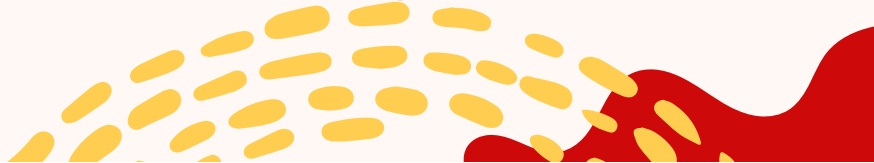

STUDENT A

32 13 23	3 26	14 35	31 40	17 28	13 27
RAIN TO SNOW	COLD BREEZY	SUNNY	RAIN/SNOW SHOWERS	MOSTLY CLOUDY	WATCHING STORM
SUN	MON	TUE	WED	THU	FRI
					SAT

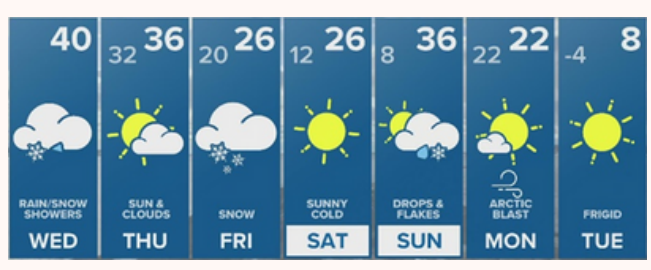

rain, clouds, overcast, rainbow, pressure, showers, sunrise, dry, tornado, sunset, humidity, cold, wind, cloudy, heat wave...

It'll...

STUDENT B

rain, clouds, overcast, rainbow, pressure, showers, sunrise, dry, tornado, sunset, humidity, cold, wind, cloudy, heat wave...

It'll...

TEACHER'S NOTES

1. Ask students to work in pairs and prepare weather reports: Student A prepares a report for Bali and student B for Sumatra.
2. Give students time to prepare and present their reports in pairs.
3. Monitor the class to ensure all students use English.
4. Nominate a few pairs to present their reports in front of the class.
