## FOREWORD

Praise and gratitude we pray to God Almighty for the completion **School Field Identification Guidebook (PLP)** This year 2023. This guidebook was published as a reference for implementing the Introduction to Schooling Fields (PLP) at Surabaya State University (Unesa) based on the issuance of Permenristekdikti Number 55 of 2017 concerning Teacher Education Standards and the 2020 MBKM Handbook.

Unesa as one of the leading Education Personnel Education Institutions (LPTK) in Indonesia, has a teacher procurement program that includes academic education or the Bachelor of Education Program, as well as the Teacher Professional Education Program (PPG). To prepare prospective educators, students of the Bachelor of Education Program are given experience in a school called Introduction to Schooling Field (PLP). Student batches of 2019, 2020 and after, as an adjustment to the implementation of the Independent Learning-Independent Campus Curriculum, practical learning courses that will be implemented outside Higher Education (outside Unesa) namely in schools for one semester with a load of 20 credits.

We hope that the implementation of this PLP goes well so as to provide useful results for the experience of educational students. Positive input that provides value for improvement for the implementation of PLP is very much needed. Technical changes that are not contained in this Manual are also likely to occur due to dynamic developments. For this reason, we received input from various parties for the sake of perfecting PLP goals for education students at Unesa.

Surabaya, June 2023

Drafting team

**RECTOR'S SPEECH**

Universitas Negeri Surabaya (Unesa) as one of the well-known State Higher Education in Indonesia, has a strategic role in carrying out the mandate of the 1945 Constitution in the field of education, namely educating the nation's life, by producing knowledgeable Indonesian people, playing an active role in the development of the nation and state, and having the ability to address and respond to a number of challenges to changes in this global world.

Based on Law no. 14 of 2005 concerning Teachers and Lecturers as well as various other legal provision products, Unesa has a main role in three things, namely creating professional teachers, educational research and development centers, and professional teacher training sites. Unesa has a teacher procurement program which includes academic education or the Bachelor of Education Program, as well as the Teacher Professional Education Program (PPG). In carrying out these two educational programs, Unesa is also ready to welcome the implementation of the 4.0 industrial revolution, where manufacturing technology has entered the trend of automation and data exchange. This includes cyber-physical systems, internet of things (IoT), cloud computing, and cognitive computing. This means that the application of the 4.0 industrial revolution instills intelligent technology that can be connected to various areas of human life.

As stated in Permenristekdikti No. 55 of 2017, to prepare prospective educators, students of the Undergraduate Education Program are given experience in a school called Introduction to Schooling Fields (PLP), and therefore I warmly welcome the presence of this 2023 Guide to Introduction to Schooling Fields. As the new curriculum adapts to current conditions, the implementation of the Independent Campus Learning Curriculum requires the best fast and strategic steps. In line with this, PLP in 2023 will be implemented offline. It is hoped that this guidebook will be able to internalize all activities related to the implementation of PLP, both for students, Supervisors, Teacher Pamong, Sub-Directorate of Independent Learning Independent Campus, as well as all stakeholders so that the implementation of PLP can run well.

Finally, I would like to thank the Drafting Team for all their hard work in preparing for the implementation of the 2023 PLP. For PLP participating students, I wish you good luck with PLP, I hope you get useful experience.

Surabaya, June 2023

Rector,

Prof. Dr. H. Nurhasan, M. Kes.

## **CHAPTER I INTRODUCTION**

### **A. Rational**

The implications of various laws and regulations related to teachers and education include changes, developments, and adjustments, especially those related to the curriculum for the preparation of professional teachers, especially the educational curriculum for the Bachelor of Education Program. The quality education curriculum of the Bachelor of Education Program will produce qualified prospective educator graduates. Qualified prospective educators will be able to take part in the Teacher Professional Education Program (PPG) properly, and in the end, an output will be produced as a professional teacher.

Referring to the Regulation of the Minister of Research, Technology and Higher Education of the Republic of Indonesia Number 55 of 2017 concerning Teacher Education Standards, it has stated a clear distinction regarding practical experience in the field between the PPG Program and the Bachelor of Education Program. In the PPG Program, practice in the field is realized in Field Experience Practice, hereinafter abbreviated as PPL, is an activity for students participating in the PPG Program to practice their abilities in learning at partner schools. As for the Bachelor of Education Program, practice in the field is manifested in the Introduction to Schooling Fields, hereinafter abbreviated as PLP, which is the process of observation/observation and apprenticeship carried out by students of the Bachelor of Education Program to study aspects of learning and management of education in educational units (Directorate of Learning, Directorate General of Learning and Student Affairs, Ministry of Technology Research and Higher Education 2017).

One of the principles that must be considered in determining the teacher education curriculum development model is the linkage of teaching and learning. Prospective teachers must be given experience as early as possible through Introduction to Schooling Fields (PLP) or internships in partner schools in stages. This is because prospective teachers are expected to have mastery of theories, methods, and learning strategies that educate in lectures in class and must be linked and integrated with how students study in schools with all their socio-cultural (environment) backgrounds.

To prepare students to become bachelors of education, Unesa organizes lectures based on field experience in schooling and social education for undergraduate education programs. The course is an Introduction to Schooling Field (PLP) course, which was previously known as the Learning Management Program (PPP). This course contains the sequence of preparing a bachelor of education through making lesson plans, learning simulations, microteaching, school observations, teaching planning, introduction and practical teaching experiences, student mentoring practices, and management practices in schools and non-formal education.

Following up on Permenristekdikti Number 55 of 2017 and the Guidelines for the Introduction to Schooling Field Programs for the Bachelor of Education Program issued by the Directorate of Learning-Directorate General of Learning and Student Affairs of the Ministry of Research, Technology, and Higher Education in 2017, since 2019 the PPP course has adapted to become PLP, where the implementation will be divided into PLP I (1 credits)

in semester 4 and PLP II (3 credits) in semester 7. However, from 2021 onwards, as an adjustment based on the Merdeka Learning-Independence Curriculum, field practice outside Unesa (at Unesa school), held for 1 semester, with a total learning load of 20 credits (consisting of 8 integrated courses and adapting the MBKM curriculum). PLP is a compulsory subject for undergraduate students in educational study programs.

PLP is the estuary of all learning activities in each study program which contains knowledge and skills provision to students about (1) the philosophical foundations and theoretical concepts of learning that are applied through simulation and microteaching teaching activities in the respective faculties, and (2) experience and skills in managing learning in schools or educational institutions in the community. This is carried out through debriefing activities, school observation, learning orientation, participating in several teacher/counselor/facilitator activities, and carrying out teaching/counseling exercises in schools and other educational institutions.

For the sake of the smooth implementation of the Introduction to Schooling Fields for prospective undergraduate education, a 2023 Unesa PLP Handbook is needed for supervising lecturers, principals, tutors, and students. In addition, the smooth running of PLP will be more optimal if it is supported by good cooperation between Unesa and education office officials in districts/cities and provinces.

#### **B. Legal basis**

1. Law of the Republic of Indonesia Number 20 of 2003 concerning the National Education System
2. Law of the Republic of Indonesia Number 12 of 2012 concerning Higher Education.
3. Regulation of the President of the Republic of Indonesia Number 8 of 2012 concerning the Indonesian National Qualifications Framework.
4. Government Regulation of the Republic of Indonesia Number 4 of 2014 concerning Implementation of Higher Education and Management of Higher Education.
5. Regulation of the President of the Republic of Indonesia Number 87 of 2017 concerning Strengthening Character Education.
6. Regulation of the Minister of Research, Technology, and Higher Education of the Republic of Indonesia Number 44 of 2015 concerning National Higher Education Standards.
7. Regulation of the Minister of Research, Technology and Higher Education of the Republic of Indonesia Number 50 of 2015 concerning Amendments to the Minister of Research and Technology and Higher Education Regulations concerning National Higher Education Standards.
8. Regulation of the Minister of Research, Technology and Higher Education of the Republic of Indonesia Number 55 of 2017 concerning Teacher Education Standards.
9. Regulation of the Minister of Education and Culture of the Republic of Indonesia Number 3 of 2020 concerning National Higher Education Standards.
10. MBKM Implementation Guidebook 2020.

### C. Understanding

Permenristekdikti Number 55 of 2017 Article 1 point 8, states that PLP is a process of observation/observation and apprenticeship carried out by students of the Bachelor of Education Program to study aspects of learning and management of education in educational units.

PLP is a stage in the process of preparing professional teachers at the Bachelor of Education Program level, in the form of assignments to students to implement learning outcomes through observing the learning process in schools/educational institutions, training in developing learning tools, and guided teaching and learning, accompanied by reflective action under guidance and supervision of supervising lecturers and tutors in stages. PLP implementation can be held both domestically and abroad. One of the implementations of PLP abroad is the SEA-Teacher program and teaching in Indonesian schools abroad.

PLP is a subject that must be taken by students of the Bachelor of Education study program. Through this course, students are given the opportunity to deepen and strengthen their competence as prospective study teachers/counselors/facilitators. Students are expected to have personality stability as prospective teachers, counselors, and facilitators, as well as various learning experiences that make it possible to develop professionalism on an ongoing basis for students and be able to apply it concretely in terms of:

1. Curriculum development and learning in creative and innovative fields of study;
2. lesson planning;
3. Implementation of learning;
4. Assessment of learning processes and outcomes;
5. Implementation of character-strengthening education in the form of school literacy programs;
6. Develop social competence and personality of students.

### D. Objective

The purpose of implementing PLP is to build a foundation for the identity of prospective educators through several forms of activities in schools as follows:

1. Direct observation of school culture.
2. Observation of organizational structure and governance in schools;
3. Observation of school rules and regulations;
4. Observation of ceremonial-formal activities at school (for example flag ceremony, briefing meeting);
5. Observation of routine activities in the form of curricular, co-curricular, and extracurricular activities; And
6. Observation of habituation practices and positive habits in schools.

In addition, students are expected to be able to strengthen educational academic competence and field of study accompanied by high-order thinking skills through the following activities:

1. Study the curriculum and learning tools used by teachers;
2. Study the learning strategies used by teachers;
3. Studying the evaluation system used by the teacher;
4. Assisting teachers in developing Learning Implementation Plans (RPP), learning media,

- teaching materials, and evaluation tools;
5. Study the use of information and communication technology in learning;
  6. Teaching practice under the guidance of tutor teachers and PLP supervisors, with the aim of experiencing the learning process firsthand, as well as strengthening the identity of prospective educators;
  7. Carry out the tasks of assisting students and extracurricular activities; And
  8. Helping teachers in carrying out the tasks of teacher administration work.

**E. Scope**

The core of PLP activities is observation, analysis, and direct appreciation of activities related to school culture, school management, and school dynamics as an educational and learning development institution as well as school introduction covering all teacher tasks, both academic and administrative tasks.

**F. Learning Outcomes and Learning Load**

To strengthen and integrate students' understanding competencies, educational learning, mastery of scientific fields and/or expertise, and personality, and to provide readiness for prospective educators after participating in PLP activities students under the guidance of tutor teachers are expected to understand about

1. Curriculum analysis;
2. Preparation of learning tools (teaching modules/RPP, media, teaching materials, and assessment instruments);
3. Implementation of learning activities using a variety of learning strategies and learning media;
4. Class management;
5. Utilization of information and communication technology in learning;
6. Implementation of assessment and evaluation of learning;
7. Management of co-curricular and extra-curricular activities; And
8. Teacher administrative work.

## BAB II SCHOOL FIELD INTRODUCTION

### A. Understanding

Introduction to Schooling Field (PLP) is a field practice for the Bachelor of Education Program to provide an introduction to the field related to schooling which is carried out outside of Higher Education. As a consequence of the Free Learning-Free Campus Curriculum, PLP is a form of implementation of lectures conducted off-campus for one semester equivalent to a load of 20 credits. The technical implementation is regulated separately according to the Free Learning Curriculum rolled out at Unesa. Integrating several courses that are included in real teaching practice (PLP) is intended to strengthen educational academic competence and fields of study through various forms of activity in schools. The courses are as follows:

1. PLP-School Management 2 credits
2. PLP-School Program Development 2 credits
3. PLP-Analysis Curriculum 2 SKS
4. PLP-Learning Plan Development 3 credits
5. PLP-Development of Teaching Materials 3 credits
6. PLP-Development of Learning Media 2 credits
7. PLP-Learning Assessment 2 credits
8. PLP- Teaching Practice 4 credits.

### B. Objective

After participating in PLP activities, students are expected to be able to strengthen academic competence in education and fields of study accompanied by critical thinking skills and higher-order thinking skills through the following activities:

1. Direct observation of school culture;
2. Observation of organizational structure and governance in schools;
3. Observation of school rules and regulations;
4. Observation of ceremonial-formal activities at school (for example flag ceremony, briefing meeting);
5. Observation of routine activities in the form of curricular, co-curricular, and extracurricular activities;
6. Observation of habituation practices and positive habits in schools;
7. Study the curriculum and learning tools used by teachers;
8. Study the learning strategies used by teachers;
9. Studying the evaluation system used by the teacher;
10. Assist teachers in developing teaching modules/RPP, media, teaching materials, and assessment instruments as well as administrative tasks;
11. Study the use of information and communication technology in learning;
12. Teaching practice under the guidance of tutors and PLP supervisors, with the aim of experiencing the learning process firsthand;
13. Carry out the tasks of assisting students and extracurricular activities.

### C. Scope

The scope of PLP includes observation, analysis, and direct involvement in activities related to school culture, school management, and school dynamics as an educational and learning development institution, as well as assisting teachers with both academic and administrative tasks.

### D. Learning Outcomes and Learning Load

The PLP MBKM model has a learning load of 20 credits distributed in 8 courses with learning outcomes and the scope of each. It is hoped that the teaching practices that weigh 4 credits that students take while at partner schools can strengthen and integrate the competence of students' understanding, educational learning, mastery of scientific fields and/or expertise, and personality, and to provide readiness for prospective educators. So that after participating in PLP activities, students under the guidance of the Pamong Teacher and Supervisor are expected to have learning outcomes of being able to:

1. Describe the general characteristics of students;
2. Describe the organizational structure and work procedures of the school;
3. Describe the school rules and regulations;
4. Identify ceremonial-formal activities at school;
5. identify curricular, co-curricular, and extra-curricular activities;
6. Describe the positive practices and habits in schools;
7. Understanding curriculum analysis;
8. Understand the preparation of learning tools (teaching modules/RPP, media, teaching materials, and assessment instruments);
9. Understand the implementation of learning activities with a variety of learning strategies and learning media;
10. Understanding classroom management;
11. Understanding the use of information and communication technology in learning;
12. Understand the implementation of assessment and evaluation of learning;
13. Understand the management of co-curricular and extra-curricular activities.

### E. Implementation and Requirements

#### 1. Implementation

PLP activities at Unesa consist of 2 implementation patterns, namely:

##### a. PLP International School

##### 1) Domestic International School PLP

PLP is carried out for 15 weeks ( $\pm$  1 semester) and 20 hours a week at partner schools. The details of the activities carried out by PLP participants are as follows.

1. Participants are actively involved in English in observation activities and learn about
  - a) Organizational structure and school governance;
  - b) Ceremonial-formal activities at school (for example flag ceremony, briefing meeting);
  - c) Routine activities in the form of curricular, co-curricular, extracurricular and positive habituation practices at school;
  - d) Curriculum and learning tools used by teachers;

- e) Learning strategies used by teachers;
  - f) The evaluation system used by the teacher;
  - g) Utilization of information and communication technology in learning;
  - h) Teaching practice at least eight times performed offline with the guidance of tutor teachers and PLP supervisors; And
  - i) Implementation of student assistance tasks and extracurricular activities.
2. Students carry out PLP MBKM equivalent to 20 credits which are integrated in 8 courses with the rationalization of student learning load at school as follows.

**Table 1.** Rationalization of Study Load for PLP Students at Domestic International Schools

Course Name	SKS (1 Credit = 170 minutes)	Minute Equivalent per Sunday				Activity Description
		Student PLP	Senior High School	Junior High School	Elementary School	
Mk-1: PLP-School Management	2	340	340 minutes			DPMK guidance and bills
Mk-2: PLP-School Program Development	2	340	340 minutes			DPMK guidance and bills
Mk-3: PLP-Curriculum Analysis	2	340	340 minutes			DPMK guidance and bills
Mk-4: PLP-Learning Plan Development	3	510	510 minutes			DPMK guidance and bills
Mk-5: PLP-Material Development Teach	3	510	510 minutes			DPMK guidance and bills
Mk-6: PLP-Development of Learning Media	2	340	340 minutes			DPMK guidance and bills
Mk-7: PLP-Assessment Learning	2	340	340 minutes			DPMK guidance and bills
Mk-8: PLP-Teaching Practice	4	680	720 min / 16 JP	680 min / 17 JP	700 min / 20 JP	Teaching practice every week under the guidance of the Teacher Pamong

Notes: 1 JP SMA/SMK = 45 minutes; SMP/MTs = 40 minutes; SD/MI = 35 minutes

- 3. Students upload the Final Report on the Implementation of PLP (group report) individually a maximum of 7 days after the PLP has been completed via SIM ELLA.
  - 4. PLP Supervisors visited partner schools 3 times, namely 1 time during handover (offline), 1 time in the middle of the PLP process (online), and 1 time during withdrawal from school (offline).
  - 5. Pamong teachers provide intensive guidance while students are doing PLP at partner schools.
  - 6. Field Supervisors upload a maximum value of 14 days after the PLP is carried out via SIM ELLA.
- 2) **PLP International School Overseas**

PLP is carried out for eight weeks ( $\pm$  1 semester) in partner schools. The details of the activities carried out by PLP participants are as follows:

- 1. Participants are actively involved in English in observation activities and learn about:

- a) Organizational structure and school governance;
  - b) Ceremonial-formal activities at school;
  - c) Routine activities in the form of curricular, co-curricular, extracurricular and positive habituation practices at school;
  - d) Study the curriculum and learning tools used by teachers;
  - e) Study the learning strategies used by teachers;
  - f) Studying the evaluation system used by the teacher;
  - g) Study the use of information and communication technology in learning;
  - h) Teaching practice at least 4 times performed offline with the guidance of tutor teachers and PLP supervisors; And
  - i) Carry out the tasks of assisting students and extracurricular activities.
2. Students carry out PLP MBKM equivalent to 20 credits which are integrated in 8 courses with the rationalization of study load at school as follows.

**Table 2.** Rationalization of Study Load for PLP Students at International Schools Abroad

Course Name	SKS (1 Credit = 170 minutes)	Minute Equivalent per Sunday				Activity Description
		Student PLP	Senior High School	Junior High School	Elementary School	
Mk-1: PLP-School Management	2	340	340 minutes			DPMK guidance and bills
Mk-2: PLP-School Program Development	2	340	340 minutes			DPMK guidance and bills
Mk-3: PLP-Curriculum Analysis	2	340	340 minutes			DPMK guidance and bills
Mk-4: PLP-Learning Plan Development	3	510	510 minutes			DPMK guidance and bills

Mk-7: PLP-Assessment Learning	2	340	340 minutes			DPMK guidance and bills
Mk-8: PLP-Teaching Practice	4	680	720 min / 16 JP	680 min / 17 JP	700 min / 20 JP	Teaching practice every week under the guidance of the Teacher Pamong

Notes: 1 JP SMA/SMK = 45 minutes; SMP/MTs = 40 minutes; SD/MI = 35 minutes

3. Students upload the Final Report on the Implementation of PLP (group report) individually a maximum of 7 days after the PLP has been completed via SIM ELLA.
4. PLP Supervisors visited partner schools to guide participants 3 times, namely 1 time during submission (offline), 1 time in the middle of the PLP process (online), and 1 time during withdrawal from school (offline).
5. Pamong teachers carry out intensive mentoring while students are doing PLP at partner schools.
6. Field Supervisors upload a maximum value of 14 days after the PLP is carried out via SIM ELLA.

**b. PLP National School**

PLP is carried out for 15 weeks ( $\pm$  1 semester) and 20 hours a week at partner schools. The details of the activities carried out by PLP participants are as follows:

1. Participants are actively involved in observing and learning about
  - a) organizational structure and school governance;
  - b) ceremonial-formal activities at school (for example flag ceremony, briefing meeting);
  - c) routine activities in the form of curricular, co-curricular, extracurricular and positive habituation practices at school;
  - d) studying the curriculum and learning tools used by teachers;
  - e) study the learning strategies used by teachers;
  - f) studying the evaluation system used by teachers;
  - g) study the use of information and communication technology in learning;
  - h) teaching practice at least eight times performing offline with the guidance of tutor teachers and PLP supervisors;
  - i) carrying out the tasks of assisting students and extracurricular activities.
2. Students carry out PLP MBKM equivalent to 20 credits which are integrated in 8 courses with the rationalization of student learning load at school as follows.

**Table 3.** Rationalization of Study Load for PLP Students in National Schools

Course Name	SKS (1 Credit = 170 minutes)	Minute Equivalent per Sunday				Activity Description
		Student PLP	Senior High School	Junior High School	Elementary School	
Mk-1: PLP-School Management	2	340	340 minutes			DPMK guidance and bills

Notes: 1 JP SMA/SMK = 45 minutes; SMP/MTs = 40 minutes; SD/MI = 35 minutes

3. Students upload the Final Report on the Implementation of PLP (group report) individually a maximum of 7 days after the PLP has been completed via SIM ELLA.
4. PLP Supervisors visited partner schools to guide participants 3 times, namely 1 time at the

time of handover, 1 time in the middle of the PLP process, and 1 time during withdrawal from school.

5. Pamong teachers carry out intensive mentoring while students are doing PLP at partner schools.
6. Field Supervisors upload a maximum value of 14 days after the PLP is carried out via SIM ELLA.

## **2. Condition**

### **a. Student**

PLP-MBKM participating students must meet the following requirements.

1. Active as a Bachelor of Education Student in the current semester;
2. Register in Unesa's academic information system (Melisa → ELLA) in the Odd semester 2023/2024 period as a student participation in PLP-MBKM activities;
3. Have passed at least 100 credits of courses in the previous semester;
4. Have passed a microteaching course (or with an equivalent name) with the lowest grade B;
5. Have passed the Basic Education Courses (MKDK) and learning courses according to the respective Study Programs;
6. Have obtained the approval of the Study Program Coordinator, or the consideration of an Academic Advisor to take part in the PLP;
7. For students taking international PLP, both domestically and abroad, they must submit a Unesa TEP certificate with a minimum score of 475 and take part in the selection held by partner schools;
8. The technical departure and return of international PLP abroad deal directly with the Unesa Office of International Affairs.

### **b. Field Supervisor**

The requirements for PLP field supervisors must meet the following criteria.

1. The lowest academic qualification is a master's or applied master's and has a background in accordance with the scientific field and/or expertise being taught;
2. Lecturers with non-educational qualifications must have a certificate of Moral learning training and/or AA;
3. Appointed by MBKM sub-directorate.

### **c. Subject Lecturer**

The requirements for PLP lecturers must meet the following criteria.

1. The lowest academic qualification is a master's or applied master's and has a background in accordance with the scientific field and/or expertise being taught;
2. Lecturers with non-educational qualifications must have a certificate of Moral learning training and/or AA;
3. Appointed by MBKM sub-directorate.

### **d. Tutor teacher**

The requirements for the Teacher Pamong for PLP are as follows.

1. Having the status of a permanent teacher at the place of implementation of School Field Identification;
2. The lowest academic qualification is an undergraduate or applied bachelor's degree

and educator certificate;

3. Has the lowest position Young Master; And
4. Appointed by the Principal of the place where the PLP is implemented.

**e. Partner School**

Partner schools for PLP must meet the following requirements.

1. The lowest partner school accreditation rating is B (Good);
2. Have teachers who meet the requirements as Teacher Pamong.

**F. PLP Guidance System**

1. PLP participant students are guided by supervisors.
2. One PLP supervisor guides students in 1-3 partner schools.
3. PLP supervisors carry out intensive mentoring offline or can communicate through existing media according to the agreement.
4. PLP supervisors at national schools provide guidance 3 (three) times offline, namely 1 time at the time of submission, 1 time in the middle of the PLP process, and 1 time at the time of withdrawal from school. As a form of monitoring, DPL will fill in the minutes and documentation after the school visit.
5. PLP supervisors at domestic international schools provide guidance 3 (three) times, namely 1 time during submission (online), 1 time in the middle of the PLP process (offline), and 1 time during withdrawal from school (online). As a form of monitoring, DPL will fill in the minutes and documentation after the school visit.
6. PLP supervising lecturers at overseas international schools provide guidance 3 (three) times online, namely at the time of submission, midway through the PLP process, and withdrawal from school. As a form of monitoring, DPL will fill in the minutes and documentation after the school visit.
7. The mentoring process by PLP supervisors includes (a) reflection on the results of activities carried out by students; (b) identification of problems and obstacles faced by students; and (c) identification of alternative solutions to problems faced by students.
8. Pamong teachers carry out intensive mentoring while students are doing PLP at partner schools, including preparation of learning tools, implementation of learning, assessment and evaluation, co-curricular, and extracurricular activities.

**G. PLP Evaluation System**

1. The PLP scoring system for MPK 1-7 adjusts to the MPK SLP bills made by each MPK lecturer for each study program.
2. The PLP scoring system for MPK 8, is described as follows:
  - a. The components and weights of the MPK 8 assessment consist of:

**Table 4.** PLP Assessment Components and Weights

a	Assessment from tutors (individuals)	40%
b	Report on the implementation of PLP (group per study program) by the Supervisor	20%
c	Individual Performance Assessment by supervisors	40%

- b. The assessment uses the format provided (attached);  
The PLP score consists of the components of the Teacher Teacher Value (NGP), the PLP Implementation Report by the Supervisor (NLP), and the Individual

Performance Assessment (NKI) by the Supervisor, with the Final Score formula (NA) as follows:

**Final Score (NA)**

$$NA = \frac{(40 \times NGP) + (20 \times NLP) + (40 \times NKI)}{100}$$

Information

- NA = PLP Final Value
- NGP = Value of Teacher Pamong
- NLP = Implementation Value of PLP Report
- NKI = Individual Performance Value

**The value of the Pamong Teacher**

$$NA = \frac{(20 \times NBPR) + (30 \times NKMM) + (30 \times NLM) + (20 \times NKSP)}{100}$$

Information

- NGP = The value of the Pamong Teacher
- NBPR = Value of RPP/Teacher Module Development Assistance
- NKMM = Assess Student Ability in Developing Learning Devices
- NLM = The Value of Teaching Practice
- NKSP = Value of Social Competence and Personality

**Nilai Reporton PLP (NLP)**

The value of the PLP Report (NLP) is obtained from the value of written reports in groups in one school in the same field of study which contains the implementation of PLP. The assessment is carried out by the supervising lecturer.

NLP = PLP Report Value (made on a scale of 0-100)

**Individual Performance Value (NKI)**

Individual Performance Scores (NKI) are carried out by supervisors through the available assessment rubrics. This assessment can be done during the mentoring or supervision process.

NKI = Individual Performance Score (built on a scale of 0-100)

- c. Reports are compiled in groups and collected no later than 14 days after the PLP has been completed. If necessary (for example to fulfill a school request), a group report can be printed in two (2) copies: 1 for the student group concerned, and 1 for the school. Reports for the Head of the PLP Section are carried out collectively per

group per study program according to the partner school occupied, in the form of softcopy containing reports from each group, and uploaded individually via SIM ELLA.

- d. Individual performance assessment is carried out by the Supervisor.
- e. The Supervisor uploads the value through the ELLA SIM no later than 14 days after the PLP is completed.

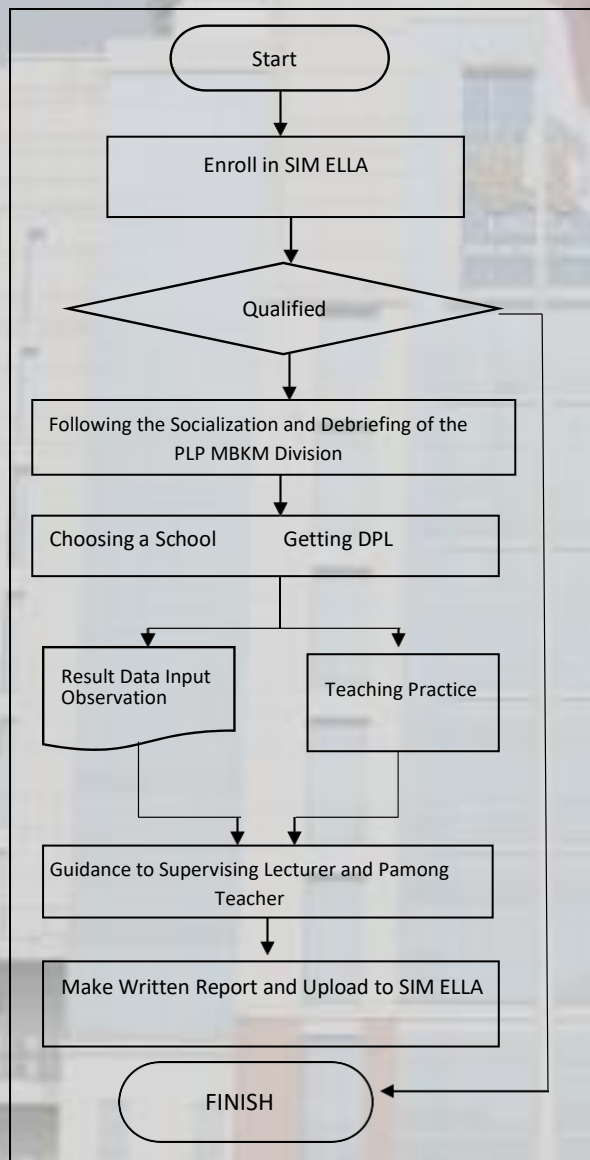

**H. Coordination System**

PLP as part of the experience program in schools, is managed by the School Field Introduction Section, Sub Directorate of Independent Learning-Independent Campus (MBKM) Universitas Negeri Surabaya. Several parties are involved and must be actively involved/participative in the implementation of PLP, namely as follows.

**Table 5.** PLP Cross-Functional Coordination System

No	Position	Role and function
1	Rector	University person in charge
2	Deputy Chancellor for Education, Student Affairs, and Alumni	Director
3	Academic Director	Director
4	Head of the Independent Learning Campus Sub Directorate	Director
5	Dean	Person in charge at the Faculty
6	vice dean of academic fields	Director at the Faculty
7	Head of the School Field Identification Section	Chief Executive
8	Study Program Coordinator	Head of Technical Implementation
9	Head of Partner School	Person in Charge at School
10	Tutor teacher	Guiding PLP Participants
11	Field Supervisor	Guiding PLP Participants

**I. Flow of PLP Implementation**

Apply for PLP through MELISA-PLP, 2023/2024 Odd Semester Period

1. Have passed at least 90 credits in the previous semester.
2. Have passed the micro-learning/micro-teaching course (or equivalent name).
3. Have passed the Basic Education Course (MKDK) and learning courses as stipulated by the respective Department / Study Program.
4. Have received approval from the Head of Department /DPA to take the 20 credits PLP.

Socialization and Implementation of the PLP Section

1. Choose a school according to the subject;
2. Observe the organizational structure and working procedures of the school, formal ceremonial activities at school (e.g. flag ceremony, briefing meeting), routine curricular, co-curricular and extracurricular activities, and the school's positive practices and habits.;
3. Studying the curriculum and learning tools used by the teacher;
4. Study learning strategies that
5. Studying the evaluation system used by the teacher;
6. Assist teachers in developing teaching modules/RPPs, learning media, teaching materials, and evaluation tools.;
7. Studying the utilization of information and communication technology in learning;
8. Carry out tasks of mentoring students and extracurricular activities.

Students make a written report in groups and upload it individually on the MELISA-PLP SIM.

**Figure 1.** Flow of PLP Implementation

I. PLP Supervisor Task Flow

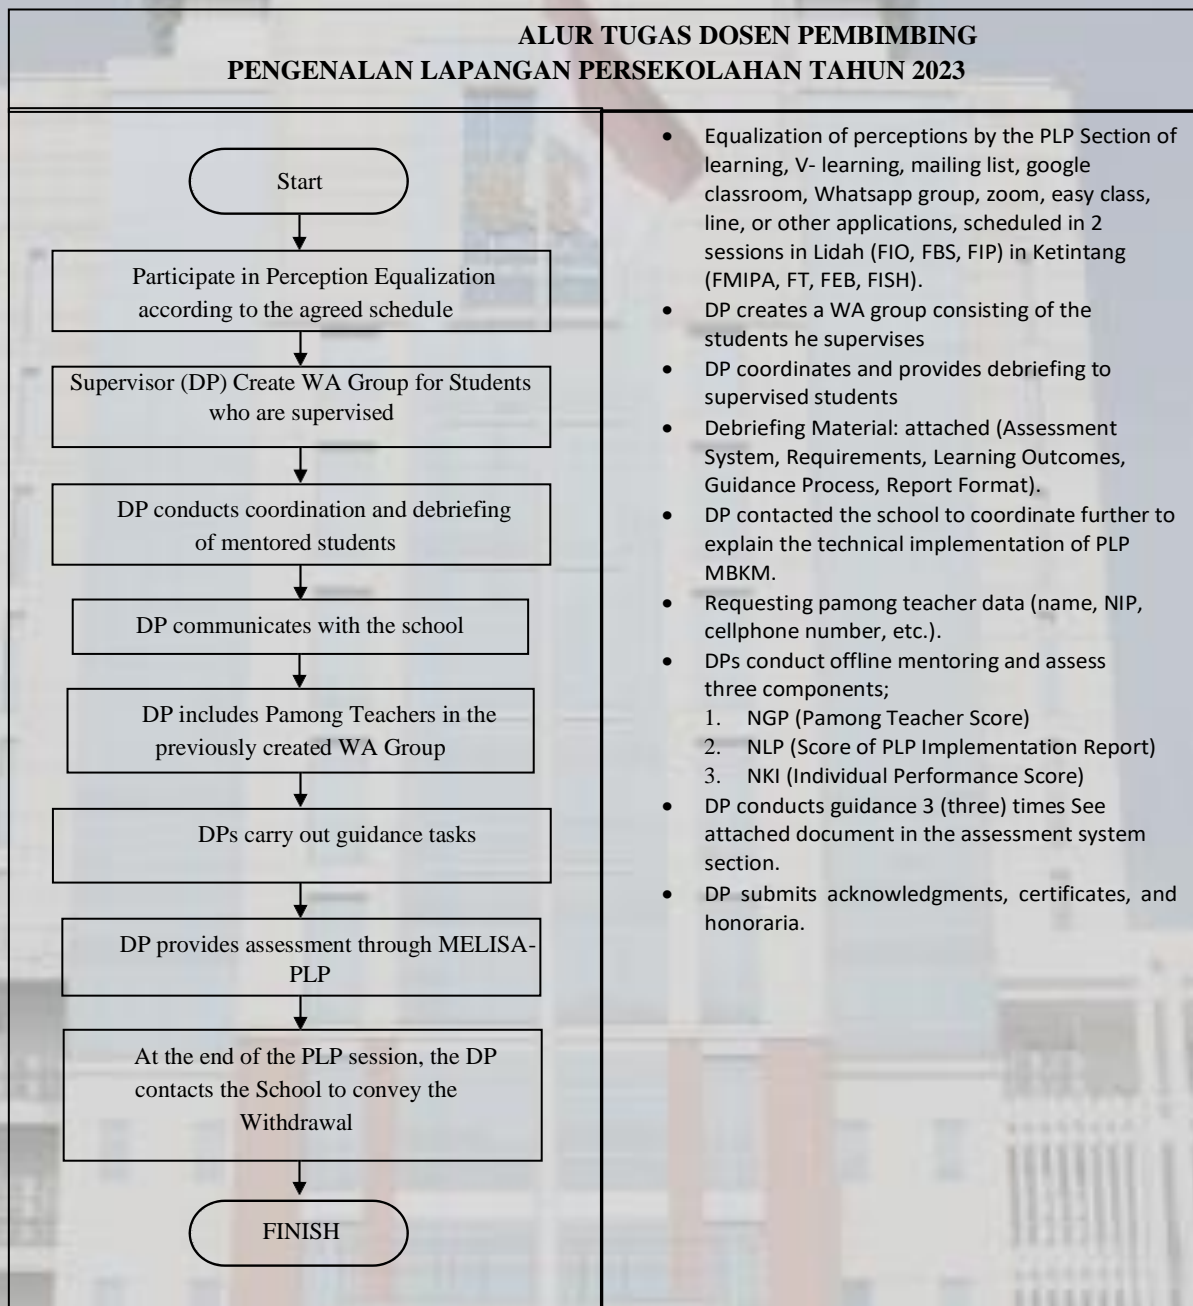

Figure 2. PLP Supervisor Task Flow

## CHAPTER III MONITORING AND EVALUATION

### A. Monitoring of PLP Activities

1. Monitoring of the implementation of PLP is carried out by the Chancellor, Deputy Chancellor for Education, Student Affairs, and Alumni, Academic Director, Faculty Leaders, MBKM Sub-Directorate, School Field Introduction Section, and other parties who are competent and who assist in the smooth running of the monitoring process.
2. Monitoring is carried out by visiting partner schools by completing the monitoring instrument that has been prepared (attached).
3. Monitoring activities are carried out within a tentative time frame.
4. The schools monitored were partner schools (samples) determined by the head of the Introduction to Schooling Field section based on the principle of representation (representative).

### B. Evaluation

Evaluation is carried out by the PLP Section by conducting *collecting* the data obtained from the results of monitoring, and becomes the basis for the development and improvement of PLP implementation in the future.

**PLP OBSERVATION SHEET**  
**(For Students)**  
**ASPECT OF SCHOOL CULTURE**

**Instruction:**

1. This sheet is for recording the results of group work after carrying out PLP, on the Topic of School Culture.
2. This sheet is to identify habituation activities that occur in schools where PLP is located, which can build a good attitude (character) of school members.
3. Give a score to the observed indicators/aspects by circling the number in the score column (1 2 3 4 5 ) according to the following criteria:  
**1 = not good; 2 = less good; 3 = moderate; 4 = good; 5 = very good**
4. Each existing activity can be added a description to describe it better.

Date *information acquiring* : .....

School name : .....

No	Observation Aspect	Score
1	3S Activities (Smile, Greet, Greeting)	1 2 3 4 5
2	Early learning conditioning	1 2 3 4 5
3	Implementation of the flag ceremony	1 2 3 4 5
4	Use of school uniform	1 2 3 4 5
5	Tips for keeping clean	1 2 3 4 5
6	Tips for keeping calm	1 2 3 4 5
7	Suggestions for using time	1 2 3 4 5
8	Assessing the personality of PLP students	1 2 3 4 5
9	Create a calm and comfortable atmosphere for learning	1 2 3 4 5
10	The atmosphere at school is fun	1 2 3 4 5
