## PREFACE

Praise and gratitude to God Almighty for the completion of this **Guidebook for the Introduction of School Field (PLP)** Year 2023. This guidebook was published as a reference for the implementation of the Introduction to School Field (PLP) at Surabaya State University (Unesa) based on the issuance of Permenristekdikti Number 55 of 2017 concerning Teacher Education Standards and the 2020 MBKM Guidebook.

Unesa as one of the leading Educational Personnel Education Institutions (LPTK) in Indonesia, has a teacher procurement program which includes academic education or the Bachelor of Education Program, as well as the Teacher Professional Education Program (PPG). To prepare prospective educators, Bachelor of Education Program students are given experience in schools called the Introduction to School Field (PLP). Students in 2019, 2020, and after, as an adjustment to the implementation of the Merdeka Learning-Campus Curriculum, learning practice courses will be carried out outside the University (outside Unesa), namely in schools for one semester with a load of 20 credits.

We hope that the implementation of this PLP will run well so that it provides useful results for the experience of educational students. Positive input that provides improvement value for the implementation of PLP is needed. Technical changes that are not contained in this Guidebook are also likely to occur due to dynamic developments. For this reason, we welcome input from various parties for the perfection of PLP goals for educational students at Unesa.

Surabaya, June 2023

Compilation Team

## FOREWORDS

Surabaya State University (Unesa) as one of the leading State Higher Education in Indonesia, has a strategic role in carrying out the mandate of the 1945 Constitution in the field of education, namely educating the nation's life, by producing Indonesian people who are knowledgeable, play an active role in nation and state development, and have the ability to respond and answer a number of challenges to changes in this global world.

Based on Law No. 14 of 2005 concerning Teachers and Lecturers as well as various other legal provisions, Unesa assumes its main role in three things, namely professional teacher trainers, education research and development centers, professional teacher training places. Unesa has a teacher procurement program that includes academic education or Bachelor of Education Program, as well as Teacher Professional Education Program (PPG). In the implementation of these two educational programs, Unesa has also been ready to welcome the implementation of the industrial revolution 4.0, where manufacturing technology has entered the trend of automation and data exchange. This includes cyber-physical systems, internet of things (IoT), cloud computing, and cognitive computing. This means that the implementation of the industrial revolution 4.0 is embedding smart technology that can connect with various fields of human life.

As stated in Permenristekdikti No. 55 of 2017, to prepare prospective educators, students of the Bachelor of Education Program are given experience in schools called the Introduction to the School Field (PLP), and therefore I warmly welcome the presence of this Guidebook for the Introduction to the School Field in 2023. Along with the rolling of a new curriculum that is adaptive to current conditions, implementing the Independent Campus Learning Independent Curriculum requires the best quick and strategic steps. In line with this, PLP in 2023 will be carried out offline. This guidebook is expected to internalize all activities related to the implementation of PLP, both for students, Supervising Lecturers, Pamong Teachers, Sub Directorate of Merdeka Learning Merdeka Campus, and all stakeholders, so that the implementation of PLP can run well.

Finally, I would like to thank the Compilation Team for all their hard work in preparing the implementation of PLP in 2023. For students participating in PLP, I congratulate them on carrying out PLP, hopefully getting useful experience.

Surabaya, June 2023

Rector,

Prof. Dr. H. Nurhasan, M.Kes.

## CHAPTER I INTRODUCTION

### A. Rational

The implications of various laws and regulations related to teachers and education, among others, are changes, developments, and adjustments, especially those related to the curriculum for the preparation of professional teachers, especially the education curriculum for the Bachelor of Education Program. A quality Bachelor of Education Program education curriculum will produce quality prospective educators. Qualified prospective educators will be able to follow the Teacher Professional Education Program (PPG) well, and finally the output will be produced as professional teachers.

Referring to the Regulation of the Minister of Research, Technology and Higher Education of the Republic of Indonesia Number 55 of 2017 concerning Teacher Education Standards, it has stated a clear distinction regarding the practice of field experience between the PPG Program and the Bachelor of Education Program. In the PPG Program, field practice is manifested in the Field Experience Practice, hereinafter abbreviated as PPL, which is an activity for PPG Program students to practice their abilities in learning in partner schools. As for the Bachelor of Education Program, field practice is manifested in the Introduction to School Field, hereinafter abbreviated as PLP, which is a process of observation and apprenticeship carried out by Bachelor of Education Program students to study aspects of learning and education management in educational units (Directorate of Learning Directorate General of Learning and Student Affairs Ministry of Research Technology and Higher Education 2017).

One of the principles that must be considered in determining the curriculum development model for teacher education is the relationship between teaching and learning. Prospective teachers must be given the earliest experience through the Introduction to School Field (PLP) or internship in partner schools in stages. This is because prospective teachers are expected to have mastery of theories, methods, educational learning strategies in classroom lectures and must be linked and combined with how students learn in schools with all their socio-cultural backgrounds (environment).

To prepare students to become education scholars, Unesa organizes lectures based on school field experience and community education for the S-1 education program. The course is the Introduction to School Field (PLP) course, previously known as the Learning Management Program (PPP). The course contains a sequence of preparation of a bachelor of education through making lesson plans, learning simulations, microteaching, school observation, teaching planning, introduction and experience of teaching practice, student mentoring practice, and practice of school management and non-formal education.

Following up on Permenristekdikti No. 55 of 2017 and the Guidelines for the Undergraduate Field Introduction Program published by the Directorate of Learning-Directorate General of Learning and Student Affairs of the Ministry of Research, Technology, and Higher Education in 2017, since 2019

However, since 2021 and afterwards, as an adjustment based on the Independent Learning Curriculum - Independent Campus, field practice outside Unesa (at school), is carried out for 1 semester, with a total learning load of 20 credits (consisting of 8 subjects that are integrated and adjust the MBKM curriculum). PLP is a compulsory course for students in the S-1 education study program.

PLP is the culmination of all learning activities in each study program which contains knowledge and skills provision to students about:

(1) philosophical foundations and theoretical concepts of learning applied through simulation teaching and microteaching activities in their respective faculties, and (2) experience and skills in managing learning in schools or educational institutions in the community. This is carried out through debriefing activities, school observations, learning orientation, participating in several teacher/counselor/facilitator activities, and carrying out teaching/counseling exercises in schools and other educational institutions.

For the smooth implementation of the Introduction to the School Field for prospective education graduates, the Unesa PLP Guidebook 2023 is needed for supervisors, principals, student teachers, and students. In addition, the smooth running of PLP will be more optimal if supported by good cooperation between Unesa and education office officials in districts / cities and provinces.

## **B. Legal Basis**

1. Law of the Republic of Indonesia Number 20 Year 2003 on the National Education System
2. Law of the Republic of Indonesia Number 12 Year 2012 on Higher Education.
3. Presidential Regulation of the Republic of Indonesia Number 8 of 2012 concerning the Indonesian National Qualifications Framework.
4. Regulation Government Republic of Indonesia Number 4 Year 2014 about Organization of Higher Education and Management of Higher Education.
5. Presidential Regulation of the Republic of Indonesia Number 87 of 2017 on Strengthening Character Education.
6. Regulation of the Minister of Research Technology and Higher Education of the Republic of Indonesia Number 44 of 2015 concerning National Higher Education Standards.
7. Regulation of the Minister of Research Technology and Higher Education of the Republic of Indonesia Number 50 of 2015 concerning Amendments to Permen Ristek and Dikti concerning National Higher Education Standards.
8. Regulation of the Minister of Research Technology and Higher Education of the Republic of Indonesia Number 55 of 2017 concerning Teacher Education Standards.
9. Regulation of the Minister of Education and Culture of the Republic of Indonesia Number 3 of 2020 concerning National Higher Education Standards.
10. Guidebook for the Implementation of MBKM 2020.

## C. Definition

Permenristekdikti Number 55 of 2017 Article 1 point 8, states that PLP is a process of observation and apprenticeship carried out by Bachelor of Education Program students to study aspects of learning and education management in educational units.

PLP is a stage in the process of preparing professional teachers at the Bachelor of Education Program level, in the form of assignments for students to implement learning outcomes through observing the learning process in schools / educational institutions, training in developing learning tools, and guided teaching and learning, and accompanied by reflective actions under the guidance and supervision of supervisors and mentor teachers in stages. PLP implementation can be held both domestically and abroad. One of the implementations of PLP abroad is the SEA-Teacher program and teaching in Indonesian schools abroad.

PLP is a course that must be taken by students of the S-1 education study program. Through this course, students are given the opportunity to explore and strengthen competencies as prospective teachers in the field of study / counselors / facilitators. Students are expected to have a stable personality as prospective teachers, counselors, facilitators, as well as various learning experiences that make it possible to develop professionalism in a sustainable manner for students and be able to apply it concretely in terms of:

1. Creative and innovative curriculum development and subject area learning;
2. Lesson planning;
3. Implementation of learning;
4. Assessment of learning processes and outcomes;
5. Implementation of character strengthening education in the form of a school literacy program;
6. Develop learners' social and personality competencies.

## D. Goal

The purpose of organizing PLP is to build a foundation for prospective educators through several forms of activities in schools as follows:

1. Direct observation of school culture.
2. Observation of the organizational structure and governance in the school;
3. Observation of school rules and regulations;
4. Observation of ceremonial-formal activities at school (e.g. flag ceremony, briefing meeting);
5. Observation of routine activities in the form of curricular, cocurricular, and extracurricular; and
6. Observation of habituation practices and positive habits at school.

In addition, students are expected to be able to strengthen the academic competence of education and study fields accompanied by higher-level thinking skills through the following activities:

1. Studying the curriculum and learning tools used by the teacher;
2. Studying the learning strategies used by the teacher;

3. Learn the evaluation system used by the teacher;
4. Assist teachers in developing lesson plans, learning media, teaching materials, and evaluation tools;
5. Studying the utilization of information and communication technology in learning;
6. Teaching practice with the guidance of student teachers and PLP supervisors, with the aim of experiencing the learning process firsthand, as well as strengthening the identity of prospective educators;
7. Carry out tasks of mentoring students and extracurricular activities; and
8. Assist teachers in carrying out teacher administrative work tasks.

## **E. Scope**

The core of PLP activities is observation, analysis and direct appreciation of activities related to school culture, school management, and school dynamics as an institution for developing education and learning as well as an introduction to schools covering all teacher duties, both academic and administrative.

## **F. Learning Outcomes and Learning Load**

To strengthen and integrate the competencies of understanding students, educational learning, mastery of scientific fields and / or expertise, and personality, and to provide readiness for prospective educators, after participating in PLP activities, students under the guidance of Pamong teachers are expected to understand about:

1. Curriculum analysis;
2. Preparation of learning tools (teaching modules/RPP, media, teaching materials, and assessment instruments);
3. Implementation of learning activities using a variety of learning strategies and learning media;
4. Class management;
5. Utilization of information and communication technology in learning;
6. Implementation of learning assessment and evaluation;
7. Management of co-curricular and extracurricular activities; and
8. Teacher administrative work.

## CHAPTER II INTRODUCTION TO SCHOOL FIELD

### A. Definition

Introduction to Schooling Field (PLP) is a field practice for the Bachelor of Education Program to provide field introductions related to schooling which are carried out outside the University. As a consequence of the Independent Learning Curriculum - Independent Campus, PLP is a form of implementation of lectures conducted off campus for one semester equivalent to a load of 20 credits. Technical implementation is regulated separately according to the Independent Learning Curriculum rolled out at Unesa. The integration of several courses inserted in real teaching practice (PLP) is intended to strengthen the academic competence of education and the field of study through various forms of activities in schools. The courses are as follows:

1. PLP-School Management 2 credits
2. PLP-School Program Development 2 credits
3. PLP-Curriculum Analysis 2 credits
4. PLP-Learning Plan Development 3 credits
5. PLP-Teaching Material Development 3 credits
6. PLP-Learning Media Development 2 credits
7. PLP-Learning Assessment 2 credits
8. PLP- Teaching Practice 4 credits.

### B. Goal

After participating in PLP activities, students are expected to be able to strengthen educational academic competencies and subject areas accompanied by critical thinking skills and higher-level thinking skills through the following activities:

1. Direct observation of school culture;
2. Observation of the organizational structure and governance in the school;
3. Observation of school rules and regulations;
4. Observation of ceremonial-formal activities at school (e.g. flag ceremony, briefing meeting);
5. Observation of routine activities in the form of curricular, cocurricular, and extracurricular;
6. Observation of habituation practices and positive habits at school;
7. Studying the curriculum and learning tools used by the teacher;
8. Studying the learning strategies used by the teacher;
9. Learn the evaluation system used by the teacher;
10. Assist teachers in developing teaching modules/RPPs, media, teaching materials, and assessment instruments as well as administrative tasks;
11. Studying the utilization of information and communication technology in learning;
12. Teaching practice with the guidance of student teachers and PLP supervisors, with the aim of experiencing the learning process firsthand;
13. Carry out student mentoring tasks and extracurricular activities.

## C. Scope

The scope of PLP includes observation, analysis and direct involvement in activities related to school culture, school management, and school dynamics as an institution for developing education and learning, as well as assisting teachers' tasks, both academic and administrative.

## D. Learning Outcomes and Learning Load

PLP MBKM model has a learning load of 20 credits distributed in 8 subjects with their respective learning outcomes and scope. Teaching practices that weigh 4 credits undertaken by students while in partner schools are expected to strengthen and integrate the competencies of understanding students, educational learning, mastery of scientific fields and / or expertise, and personality, and to provide readiness for prospective educators. So that after participating in PLP activities, students under the guidance of Pamong Teachers and Supervising Lecturers are expected to have capable learning outcomes:

1. Describe the general characteristics of learners;
2. Describe the organizational structure and working procedures of the school;
3. Describe school rules and regulations;
4. Identify ceremonial-formal activities at school;
5. Identify curricular, co-curricular and extracurricular activities;
6. Describe positive practices and habits at school;
7. Understand curriculum analysis;
8. Understand the preparation of learning tools (teaching modules/RPP, media, teaching materials, and assessment instruments);
9. Understand the implementation of learning activities with various learning strategies and learning media;
10. Understand classroom management;
11. Understand the utilization of information and communication technology in learning;
12. Understand the implementation of learning assessment and evaluation;
13. Understand the management of co-curricular and extracurricular activities.

## E. Implementation and Requirements

### 1. Implementation

PLP activities at Unesa consist of 2 implementation patterns, namely:

#### a. International School PLP

##### 1) In-Country International School PLP

PLP is carried out for 15 weeks ( $\pm$  1 semester) and 20 hours a week in partner schools. Details of the activities carried out by PLP participants are as follows.

1. Participants actively engage in English in observation activities and learn about:
  - a) School organization and governance structure;
  - b) Ceremonial-formal activities at school (e.g. flag ceremony, briefing meeting);
  - c) Routine activities in the form of curricular, co-curricular, extracurricular and positive habituation practices at school;

- d) Curriculum and learning tools used by teachers;
  - e) The learning strategy used by the teacher;
  - f) Evaluation system used by the teacher;
  - g) Utilization of information and communication technology in learning;
  - h) Teaching practice for at least 8 offline performances with the guidance of student teachers and PLP supervisors; and
  - i) Implementation tasks mentoring participants students and extracurricular activities.
2. Students carry out PLP MBKM equivalent to 20 credits which are integrated into 8 courses with the rationalization of student learning load at school as follows.

**Table 1.** Rationalization of Study Load for PLP Students in Domestic International Schools

Course Name	SKS (1 SKS = 170 minutes)	Equivalent Minutes per Week				Activity Description
		Mhs PLP	HIGH SCHOOL	SMP	SD	
Mk-1: PLP-School Management	2	340	340 minutes			DPMK guidance and bill
Mk-2: PLP-Development School Program	2	340	340 minutes			Guidance and bills DPMK
Mk-3: PLP-Analysis Curriculum	2	340	340 minutes			Guidance and bills DPMK
Mk-4: PLP-Learning Plan Development	3	510	510 minutes			DPMK guidance and bill
Mk-5: PLP-Development Teaching Materials	3	510	510 minutes			DPMK guidance and bill
Mk-6: PLP-Learning Media Development	2	340	340 minutes			DPMK guidance and bill
Mk-7: PLP-Assessment Learning	2	340	340 minutes			Guidance and bills DPMK
Mk-8: PLP-Practice Teaching	4	680	720 minutes / 16 JP	680 minutes / 17 JP	700 minutes / 20 JP	Teaching practice for each week with the guidance of Pamong Teacher

**Notes:** 1 JP SMA/ SMK= 45 minutes; SMP/MTs= 40 minutes; SD/MI= 35 minutes

3. Students upload the Final PLP Implementation Report (group report) individually a maximum of 7 days after PLP is completed through SIM ELLA.
  4. PLP supervisors visit partner schools for 3 times, namely 1 time during the handover (offline), 1 time in the middle of the PLP process (online), and 1 time when withdrawing from school (offline).
  5. Pamong teachers provide intensive guidance while students are doing PLP in partner schools.
  6. Field Supervisors upload grades a maximum of 14 days after the PLP is carried out through SIM ELLA.
- 2) **Overseas International School PLP**

PLP is carried out for 8 weeks ( $\pm$  1 semester) in partner schools. The details of the activities carried out by PLP participants are as follows:

1. Participants actively engage in English in observation and learning activities:
  - a) School organization and governance structure;
  - b) Ceremonial-formal activities at school;
  - c) Routine activities in the form of curricular, co-curricular, extracurricular and positive habituation practices at school;
  - d) Studying the curriculum and learning tools used by the teacher;
  - e) Studying the learning strategies used by the teacher;
  - f) Learn the evaluation system used by the teacher;
  - g) Studying the use of technology information and communication in learning;
  - h) Teaching practice for a minimum of 4 offline performances with the guidance of student teachers and PLP supervisors; and
  - i) Carry out tasks mentoring participants and extracurricular activities.
2. Students carry out PLP MBKM equivalent to 20 credits which are integrated into 8 courses with the rationalization of the learning load at school as follows.

**Table 2:** Rationalization of PLP Student Learning Load in International Overseas Schools

Course Name	SKS (1 SKS = 170 minutes)	Equivalent Minutes per Week				Activity Description
		Mhs PLP	HIGH SCHO OL	SMP	SD	
Mk-1: PLP-Management School	2	340	340 minutes			Guidance and bills DPMK
Mk-2: PLP-Development School Program	2	340	340 minutes			Guidance and bills DPMK
Mk-3: PLP-Analysis Curriculum	2	340	340 minutes			Guidance and bills DPMK
Mk-4: PLP-Learning Plan Development	3	510	510 minutes			DPMK guidance and bill
Mk-5: PLP-Development Teaching Materials	3	510	510 minutes			DPMK guidance and bill
Mk-6: PLP-Development Learning Media	2	340	340 minutes			Guidance and bills DPMK
Mk-7: PLP-Assessment Learning	2	340	340 minutes			Guidance and bills DPMK
Mk-8: PLP-Practice Teaching	4	680	720 minutes / 16 JP	680 minutes / 17 JP	700 minutes / 20 JP	Weekly teaching practice with Pamong Teacher guidance

**Notes:** 1 JP SMA/ SMK= 45 minutes; SMP/MTs= 40 minutes; SD/MI= 35 minutes

3. Students upload the Final PLP Implementation Report (group report) individually a maximum of 7 days after PLP is completed through SIM ELLA.
4. PLP supervisors visit partner schools to guide participants 3 times, namely 1 time at the time of handover (offline), 1 time in the middle of the PLP process (online), and 1 time at the time of withdrawal from school (offline).

5. Pamong teachers conduct intensive embedded mentoring during students' PLP in partner schools.
6. Field Supervisors upload grades maximum 14 days after PLP implemented through SIM ELLA.

**b. National School PLP**

PLP is carried out for 15 weeks ( $\pm$  1 semester) and 20 hours a week in partner schools. The details of the activities carried out by PLP participants are as follows:

1. Participants are actively involved in observation and learning about:
  - a) organizational structure and school governance;
  - b) ceremonial-formal activities at school (e.g. flag ceremonies, briefing meetings);
  - c) routine activities in the form of curricular, co-curricular, extracurricular and positive habituation practices at school;
  - d) study the curriculum and learning tools used by the teacher;
  - e) learning strategies used by the teacher;
  - f) learn the evaluation system used by the teacher;
  - g) study utilization of technology information and communication technology in learning;
  - h) teaching practice at least 8 times offline with the guidance of the tutor and PLP supervisor;
  - i) carry out tasks mentoring students and activities extracurricular.
2. Students carry out PLP MBKM equivalent to 20 credits integrated in 8 courses with the following rationalization of student learning load in schools.

**Table 3.** Rationalization of PLP Student Learning Load in National Schools

Course Name	SKS (1 SKS = 170 minutes)	Equivalent Minutes per Week				Activity Description
		Mhs PLP	HIGH SCHOOL	SMP	SD	
Mk-1: PLP-Management School	2	340	340 minutes			Guidance and bills DPMK
Mk-2: PLP-Development School Program	2	340	340 minutes			Guidance and bills DPMK

Mk-8: PLP-Practice Teaching	4	680	720 minutes / 16 JP	680 minutes / 17 JP	700 minutes / 20 JP	Weekly teaching practice with Pamong Teacher guidance

**Notes:** 1 JP SMA/ SMK= 45 minutes; SMP/MTs= 40 minutes; SD/MI= 35 minutes

3. Students upload the Final PLP Implementation Report (group report) individually a maximum of 7 days after PLP is completed through SIM ELLA.
4. PLP supervisors visit partner schools to guide participants 3 times, namely 1 time during the handover, 1 time in the middle of the PLP process, and 1 time at the time of withdrawal from the school.
5. Pamong teachers conduct intensive embedded mentoring during students' PLP in partner schools.
6. Field Supervisors upload grades a maximum of 14 days after the PLP is carried out through SIM ELLA.

## **2. Requirements**

### **a. Student**

Students participating in PLP- MBKM must fulfill the following requirements.

1. Active as a student of the Bachelor of Education Program in the current semester;
2. Register in the Unesa academic information system (Melisa → ELLA) in the 2023/2024 odd semester period as student participation in PLP- MBKM activities;
3. Have passed at least 100 credits in the previous semester;
4. Have passed the micro-learning /micro-teaching course (or equivalent name) with a minimum grade of B;
5. Have passed the Basic Education Course (MKDK) and learning courses as determined by the respective Study Program;
6. Have received approval from the Study Program Coordinator, or consideration from the Academic Supervisor to take PLP;
7. For students who take international PLP, both domestically and abroad, they must submit a TEP Unesa certificate with a minimum score of 475 and take part in the selection organized by the partner school;
8. The technical departure and return of international PLP abroad is directly related to the Unesa International Affairs Office.

### **b. Field Supervisor**

PLP field supervisor requirements must meet the following criteria.

1. Academic qualifications of at least a master's or applied master's degree and a background in accordance with the scientific field and/or expertise being taught;
2. Lecturers with non-education qualifications must have a certificate of training in Pekerti and/or AA learning;
3. Appointed by the MBKM sub-directorate.

### **c. Course Lecturer**

The requirements for lecturers teaching PLP courses must meet the following criteria.

1. Academic qualifications of at least a master's or applied master's degree and a background in accordance with the scientific field and/or expertise being taught;
2. Lecturers with non-education qualifications must have a certificate of training in Pekerti and/or AA learning;
3. Appointed by the MBKM sub-directorate.

## d. Teacher Pamong

The Pamong Teacher requirements for PLP are as follows.

1. Permanent teacher status at the place of implementation of the Introduction to School Field;
2. Have at least a bachelor's or applied bachelor's degree and be a certified educator;
3. Have a position of at least Junior Teacher; and
4. Appointed by the Principal of the school where the PLP is conducted.

## e. Partner School

Partner schools for PLP must fulfill the following requirements.

1. The accreditation rating of the partner school is at least B (Good);
2. Have a teacher who meets the requirements as a Pamong Teacher.

## F. PLP Mentoring System

1. Students participating in PLP are guided by a supervisor.
2. One PLP supervisor guides students in 1-3 partner schools.
3. PLP supervisors conduct intensive mentoring offline or can communicate through existing media according to the agreement.
4. PLP supervisors in national schools conduct 3 (three) times of offline guidance, namely 1 time at the time of delivery, 1 time in the middle of the PLP process, and 1 time at the time of withdrawal from school. As a form of monitoring, DPL will fill in the minutes and documentation after visiting the school.
5. PLP supervisors in domestic international schools conduct 3 (three) times of guidance, namely 1 time at the time of submission (online), 1 time in the middle of the PLP process (offline), and 1 time at the time of withdrawal from school (online). As a form of monitoring, DPL will fill in the minutes and documentation after visiting the school.
6. PLP supervisors at international schools abroad conduct 3 (three) online mentoring, namely at the time of delivery, midway through the PLP process, and withdrawal from school. As a form of monitoring, DPL will fill in the minutes and documentation after visiting the school.
7. The mentoring process by PLP supervisors includes: (a) reflection on the results of activities carried out by students; (b) identification of problems and obstacles faced by students; and (c) identification of alternative solutions to problems faced by students.
8. The mentor teacher provides intensive mentoring during the PLP at the partner school, including: preparation of learning tools, implementation of learning, assessment and evaluation, co-curricular and extracurricular activities.

## G. PLP Assessment System

1. The PLP assessment system for MPK 1-7 adjusts to the RPS MPK bill carried out by each MPK lecturer in each study program.
2. The PLP assessment system for CGPA 8, is described as follows:
  - a. The components and assessment weight of CGPA 8 consist of:

**Table 4.** Components and Weighting of PLP Assessment

a	Assessment from the host teacher (individual)	40%
b	PLP implementation report (group per study program) by lecturer Advisor	20%
c	Individual Performance Assessment by supervisor	40%

- b.** The assessment uses the format provided (attached);  
 The PLP score consists of the components of the Pamong Teacher Score (NGP), the PLP Implementation Report by the Supervising Lecturer (NLP), and the Individual Performance Assessment (NKI) by the Supervising Lecturer, with the Final Score (NA) formula as follows:

**Final Grade (NA)**

$$NA = \frac{(40 \times NGP) + (20 \times NLP) + (40 \times NKI)}{100}$$

Description

NA= Final PLP Grade

NGP= Pamong Teacher Grade

NLP= PLP Implementation

Report Score NKI= Individual

Performance Score

**Pamong Teacher Score**

$$NA = \frac{(20 \times NBPR) + (30 \times NKMM) + (30 \times NLM) + (20 \times NKSP)}{100}$$

Description

NGP= Pamong Teacher Score

NBPR= Lesson Plan Development Assistance Score/teaching module score

NKMM = Student Ability Score in Developing Learning Devices

NLM= Teaching Practice Score

NKSP= Social and Personality Competency Score

**PLP Report Score (NLP)**

The value of the PLP Report (NLP) is obtained from the value of a group written report in one school in the same field of study which includes the implementation of PLP. The assessment is carried out by the supervisor.

NLP = PLP Report Score (made on a scale of 0-100)

**Individual Performance Score (NKI)**

The Individual Performance Score (IPC) is carried out by the supervisor through the available assessment rubric. This assessment can be done during the mentoring or supervision process.

NKI = Individual Performance Score (made on a scale of 0-100)

- c. The report is compiled as a group and collected no later than 14 days after the PLP has been completed. If necessary (for example to fulfill school requests), the group report can be printed as many as two (2) copies: 1 for the student group concerned, and 1 for the school. The report for the Head of the PLP Section is done collectively per group per study program according to the school partner occupied, in the form of a softcopy containing the report of each group, and uploaded individually through SIM ELLA.
- d. Individual performance assessment is carried out by the Supervising Lecturer.
- e. Supervisors upload grades through SIM ELLA no later than 14 days after the PLP is completed.

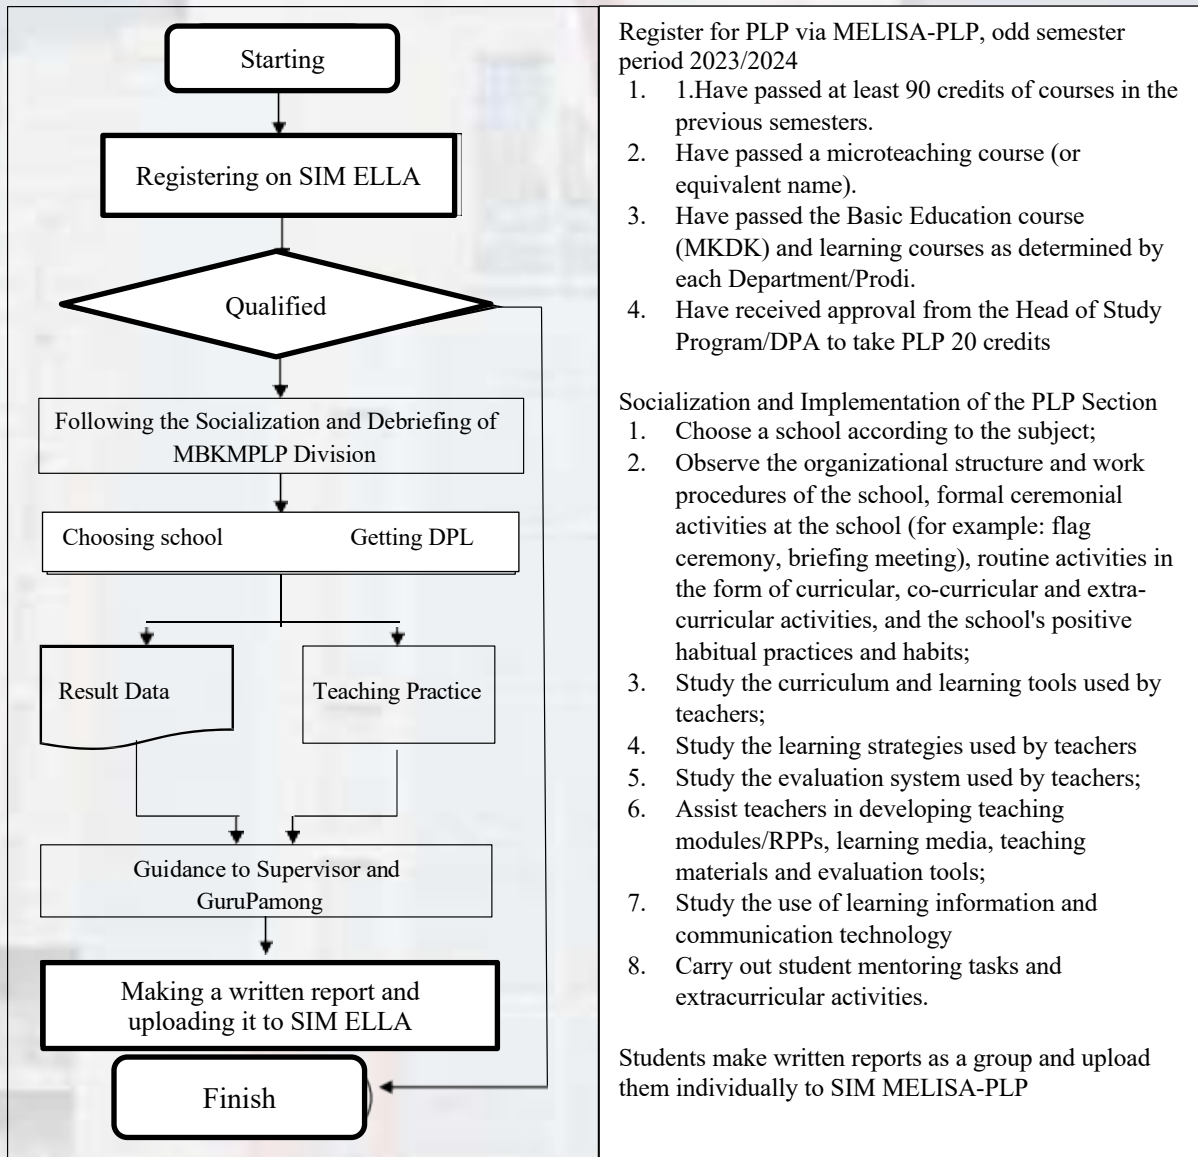

## H. Coordination System

PLP as part of the school experience program is managed by the School Field Introduction Section, Sub Directorate of Merdeka Belajar - Merdeka Campus (MBKM), Surabaya State University. Some parties involved and must be actively involved / participatory in the implementation of PLP are as follows.

**Table 5.** PLP Cross-functional Coordination System

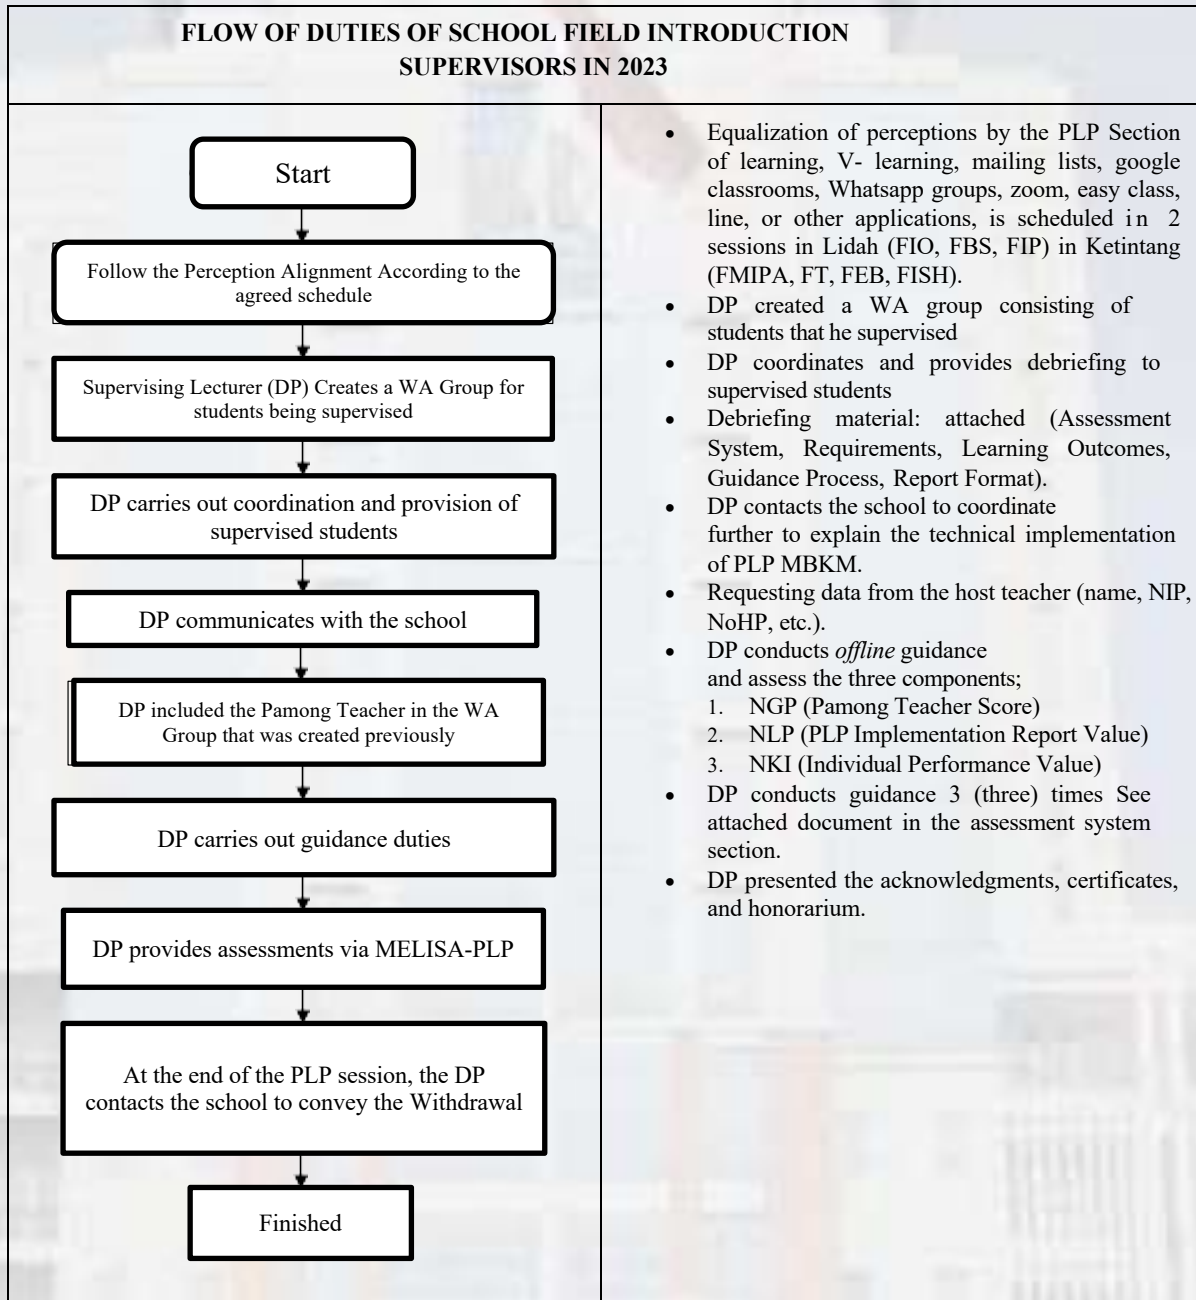

No.	Position	Role and function
1	Rector	University in charge
2	Vice Rector for Education, Student Affairs, and Alumni	Director
3	Academic Director	Director
4	Head of Sub Directorate of Merdeka Learning Merdeka Campus	Director
5	Dean	In charge of the Faculty
6	Vice Dean for Academic Affairs	Faculty Advisors
7	Chairperson of the School Field Introduction Section	Chief Executive Officer
8	Study Program Coordinator	Head of Technical Implementation
9	Partner School Principal	Person in Charge at School
10	Teacher Pamong	Mentoring PLP Participants
11	Field Supervisor	Mentoring PLP Participants

## I. PLP Implementation Flow

**Figure 1:** Flow of PLP Implementation

## J. PLP Supervisor Task Flow

**Figure 2:** Flow of PLP Supervisor Duties

## CHAPTER III MONITORING AND EVALUATION

### A. Monitoring PLP Activities

1. Monitoring of the implementation of PLP is carried out by the Chancellor, Vice Chancellor for Education, Student Affairs, and Alumni, Academic Director, Faculty Leaders, MBKM Sub-Directorate, School Field Introduction Section, and other competent parties who help smooth the monitoring process.
2. Monitoring is carried out by visiting partner schools by filling in the monitoring instrument that has been prepared (attached).
3. Monitoring activities are conducted within a scheduled (tentative) timeframe.
4. The schools monitored are partner schools (samples) determined by the head of the School Field Introduction section based on the principle of representation.

### B. Evaluation

Evaluation is carried out by the PLP Section by *collecting* data obtained from monitoring results, and becomes the basis for development and improvement of PLP implementation in the future.

### PLP OBSERVATION SHEET (For students) SCHOOL CULTURE ASPECT

**Instructions:**

1. This sheet is to record the results of group work after carrying out the PLP, on the topic of School Culture.
2. This sheet is to identify habituation activities that occur in the PLP school, which can build good attitudes (character) of the school community.
3. Score the observed indicators/aspects by circling the numbers in the score column (1 2 3 4 5 ) according to the following criteria:  
**1 = not good; 2 = less good; 3 = medium; 4 = good; 5 = very good**
4. Each of the existing activities can have a description added to better describe it.

Date of *information acquiring* : ..... School Name :

.....

No.	Observation Aspect	Score				
1	3S activities (Smile, Greet, Greet)	1	2	3	4	5
2	Early learning conditioning	1	2	3	4	5
3	Implementation of the flag ceremony	1	2	3	4	5
4	Use of school uniform	1	2	3	4	5
5	Prompt to maintain cleanliness	1	2	3	4	5
6	Advice on maintaining calm	1	2	3	4	5
7	Suggestions for utilizing time	1	2	3	4	5
8	Assessing the personality of PLP students	1	2	3	4	5
9	Creating a calm and comfortable atmosphere for learning	1	2	3	4	5
10	The atmosphere at school is pleasant	1	2	3	4	5

**FINAL PLP SCORE IN 2023**  
**(For Supervisor)**

**Program Study** :  
**Name of Supervisor** :  
**PLP Place** :

No.	Name	NIM	Pamong Teacher Grade (NGP)	Value of PLP Implementation Report (NLP)	Individual Performance Score (NKI)	Final Grade	Letter Grade
1							
2							
3							
4							
5							

NB:  
 The values in the NGP, NLP, and NKI columns are filled in between 0 - 100 without multiplying the weights.

$$NA = \frac{(40 \times NGP) + (20 \times NLP) + (40 \times NKI)}{100}$$

- Description:
- NA = PLP Final Grade
  - NGP = Pamong Teacher Score
  - NLP = PLP Implementation Report Score
  - NKI = Individual Performance Score
