2	Prerequisites for participation (if applicable) None				
3	Program Learning outcomes				
	<p>PLO 3 Able to process, analyze, present geosphere data and information using geospatial technology for geography learning and research</p>				
	<p>PLO 4 Able to apply logical, critical, systematic, and innovative thinking in the field of geography and geography education</p>				
	<p>PLO 8 Able to formulate, process, analyze data, and present geosphere information, both physical and human aspects by using geospatial technology for geography learning and research</p>				
	<p>PLO 9 Able to apply regional theory for sustainable regional planning and development</p>				
	<p>PLO 10 Apply academic values, norms, and ethics</p>				
	<p>Course Learning Outcome</p> <p>CLO 3 Able to process, analyze, present geosphere data and information using geospatial technology for geographic research</p> <p>CLO 4 Able to apply logical, critical, systematic, and innovative thinking in the field of geography and geography education to determine the study of geography research and learning in relation to the three geographical approach (spatial, ecological and regional complex approach)</p> <p>CLO 8</p>				

	<p>Able to formulate, process, analyze data, and present geosphere information, both physical and human aspects by using geospatial technology for geography learning and research</p> <p>CLO 10 Applying values, norms, and academic ethics in conducting geographical research</p>
4	<p>Course aims/Content</p> <p>This course discusses research problems, topics, approaches, basic frameworks, problem formulation, variables and measurements, types and methods of data collection, data analysis, preparation of research results, data presentation, discussion logic, drawing conclusions; compile research proposals and prepare research instruments whose results are disseminated.</p> <p>Learning Materials</p> <ol style="list-style-type: none"> 1. Research paradigm 2. The nature and special characteristics of geography research 3. Geography research variables and instruments 4. Acquisition of geography research data 5. Types of educational research 6. Educational research variables and instruments 7. Educational research data processing 8. Research proposal formulation 9. Formulation of a geography education research proposal plan
