

STANDARD OPERATING PROCEDURE (SOP)

FACIAL SKINCARE LABORATORY
of the Faculty of Engineering
Study Program in Family Welfare and Education

UNIVERSITAS NEGERI SURABAYA

STANDARD OPERATING PROCEDURE (SOP)

FACULTY OF ENGINEERING

LABORATORY OF FAMILY WELFARE STUDY PROGRAM

Issued by:

Head of Laboratory

Dr. Ir. H. Soeparno M.T
Nip. 196511011993021001

Approved by:

Head of Faculty Quality Assurance

Dr. Subuh Isnur Haryudo S.T., M.T
Nip. 197508202008121003

Dean

Prof. Dr. Suparji S.Pd., M.Pd
Nip. 196906021994031001

1. PURPOSE

This SOP regulates the operational procedures, safety management, and utilisation of the facilities in the **Facial Skincare Laboratory** of the Family Welfare Study Program. It ensures that facial skincare-related practical activities, research, and educational tasks are performed efficiently and safely.

2. SCOPE

This SOP applies to all users of the Facial Skincare Laboratory, including lecturers, students, technicians, and any other parties involved in using laboratory facilities. It includes:

- The use of equipment and facilities for facial skincare projects.
 - Ensuring work safety and hygiene.
 - Maintenance and care of laboratory equipment.
 - Daily operational procedures.
-

3. DEFINITIONS

- **Facial Skincare Laboratory:** A facility used for teaching, training, research, and developing facial skincare techniques under the Family Welfare Study Program.
 - **Laboratory Users:** Students, lecturers, technicians, or staff involved in laboratory activities.
 - **Personal Protective Equipment (PPE):** Equipment such as gloves, face masks, and protective gowns used to ensure hygiene and safety during facial treatments.
-

4. RESPONSIBILITIES

4.1. Head of Facial Skincare Laboratory

- Manages and supervises laboratory operations, including overseeing activities, approving equipment use, and maintaining facilities.
- Coordinates equipment maintenance and repair with technicians.
- Ensures all safety and hygiene protocols are followed by users.

4.2. Laboratory Technician

- Prepares all equipment, materials, and tools used in facial skincare research and practical activities.
- Conducts regular maintenance, calibration, and repair of tools and equipment related to facial skincare.
- Ensures the safety of users and supervises laboratory activities.

4.3. Laboratory Users

- Responsible for maintaining cleanliness and order in the laboratory.
- Must report any damage or accidents to the technician or head of the laboratory.

SOP Table for FACIAL SKINCARE Laboratory of Family Welfare Study Program

No	Process	Responsibility	Description
1	Head of Laboratory	Head of Laboratory	Manages and supervises the laboratory operations, including approval for usage and maintenance of facilities and equipment.
2	Laboratory Preparation	Laboratory Technician	Prepares equipment, materials, and laboratory facilities for practical or research activities. Checks the condition of the laboratory and ensures equipment is ready for use.
3	Activity Supervision	Laboratory Technician	Supervises the activities in the laboratory and ensures that users follow safety procedures.
4	Laboratory Usage	Supervising Lecturer / Users	Laboratory users follow instructions from the technician and supervising lecturer for

			using the equipment. Any damages must be reported and logged in the logbook.
5	Equipment and Material Usage	Users (Students/Lecturers)	Students or lecturers use the equipment according to the instructions. Users are responsible for cleaning the equipment and work area after use.
6	Waste Disposal	Users (Students/Technicians)	Separate waste (organic, inorganic, chemical) according to the procedures.
7	Equipment Maintenance	Laboratory Technician	Technicians conduct regular maintenance of the equipment and facilities, perform calibration, and report if any equipment needs repair or replacement.
8	Emergency Response	All Parties	In case of emergency, such as fire or accidents, all parties must follow the established evacuation procedures. Fire extinguishers and first aid kits are available for use.

5. OPERATIONAL PROCEDURES

5.1. Preparation for Laboratory Use

1. Reservation for Use

- Users must reserve the Facial Skincare Laboratory at least 2 business days before the scheduled use via the administration system or by contacting the technician.
- Users must provide a detailed project plan, including the equipment needed and the number of participants.

2. Initial Inspection

- Before starting, the technician must inspect and prepare all equipment and tools to ensure readiness.
- Any issues or damages must be reported immediately and recorded in the **Laboratory Logbook**.

3. Personal Protective Equipment (PPE)

- PPE is mandatory during skincare treatments. This includes gloves, face masks, and protective gowns to ensure hygiene and safety. Users without PPE will not be allowed to continue laboratory activities.

5.2. Facial Skincare Laboratory Usage Procedure

1. Instructions and Supervision

- The supervising lecturer or technician will provide instructions on how to properly use the tools and equipment, along with hygiene and safety precautions.
- Users must follow these instructions to prevent contamination, accidents, or equipment damage.

2. Equipment and Tool Usage

- Users must inspect equipment and tools both before and after use. Any damage must be reported and logged in the **Damage Report Form**.
- All tools and equipment must be cleaned, disinfected, and returned to their proper place after use.

3. Hygiene and Waste Management

- All skincare materials, brushes, and tools must be handled with proper hygiene practices, including cleaning and disinfecting after each use.
- Waste materials, such as disposable gloves, wipes, and product packaging, must be disposed of according to laboratory waste protocols.

5.3. Exit Procedures from the Facial Skincare Laboratory

1. Cleaning the Work Area

- After completing activities, users must clean their workspace, ensuring all surfaces, tools, and equipment are sanitized and stored properly.

- Waste materials and unused resources must be disposed of according to laboratory waste disposal guidelines.

2. Shutting Down Equipment

- Turn off all skincare-related equipment, electrical devices, and lights after use.
- Inform the laboratory technician once all activities are completed for final inspection.

3. Activity Log

- All users must record their use of equipment, duration of activities, and condition of equipment in the **Laboratory Logbook** before leaving the laboratory.

5.4. Equipment Maintenance

1. Routine Checks

- The laboratory technician will conduct weekly checks on all skincare tools, machines, and equipment to ensure everything is functioning properly.
- Equipment requiring calibration (e.g., facial steamers, microdermabrasion machines) must be checked every six months.

2. Repairs and Replacement

- Any malfunctioning equipment must be reported to the technician for immediate repair or replacement.
 - Equipment that cannot be repaired must be documented using the **Replacement Form**.
-

6. WORK SAFETY

6.1. Emergency Procedures

1. Fire

- In case of fire, users must activate the fire alarm and follow the evacuation route.
- Fire extinguishers are available in the laboratory and should only be used by trained personnel.

2. Workplace Injuries

- Any injuries must be reported to the technician immediately. First aid should be administered using the **First Aid Kit**.
- For severe injuries, the campus health unit or emergency services should be contacted.

7. PENALTIES

Users who violate the rules outlined in this SOP will face disciplinary action, depending on the severity of the infraction, which may include:

- Verbal or written warnings.
- Temporary or permanent suspension from laboratory access.
- Financial responsibility for damage caused to equipment due to negligence.

8. CLOSING

This SOP takes effect from the date of issuance. It will be reviewed every two years or as needed to ensure smooth laboratory operations.
