II. Table Description of Non-Conformity of Monitoring and Evaluation of Online and Offline Learning at the Faculty of Engineering

(filled in based on non-conformities as in the table of part I)

a. Study Program: S1 Mechanical Engineering

Item No.	Problem Description	Root of the Problem	Follow-up Plan
Additional	Sidia usage needs to be maximized	<ul style="list-style-type: none"> ✓ RPS on sidia has not been filled in completely ✓ <i>Learning Management System (LMS)</i> courses have not been filled in by lecturers in full on SIDIA (Sinau Digital Unesa) ✓ Have not made a student assignment design (RTM) according to the format ✓ Lecturers are still in the process learn about the Sidia app 	<ul style="list-style-type: none"> ✓ Organize a workshop on the use of Sidia for all study program lecturers ✓ Complete RPS on Sidia ✓ Equipping the LMS on Sidia ✓ Draft a student assignment (RTM)

b. Study Program: S1 Mechanical Engineering Education

Item No.	Problem Description	Root of the Problem	Follow-up Plan
6	The RPS does not yet contain information about the latest teaching materials (recommended maximum of the last 10 years) and from the results of research and community service.	Reference not yet updated	Update references immediately
30	Lecturers have not returned assessed assignments to students.	Assignments have not been returned because corrections have not been completed	Task return can be done by system
Additional	RPS is not yet OBE	Lecturers have not made OBE RPS	Organizing an OBE RPS development workshop for all OBE students. study program lecturer

c. Study Program: S1 Electrical Engineering Education

Item No.	Problem Description	Root of the Problem	Follow-up Plan
34	UTS results have not been handed back to students	Not yet announced Back to students because UTS assessment has not been completed yet	Immediately hand back the assessed UTS results

Additional	Sidia usage needs to be maximized	<ul style="list-style-type: none"> ✓ RPS on sidia has not been filled in completely ✓ <i>Learning Management System (LMS)</i> courses have not been filled in by lecturers completely on SIDIA (Sinau Digital Unesa) 	<ul style="list-style-type: none"> ✓ Organize a workshop on the use of Sidia for all study program lecturers ✓ Complete RPS on Sidia ✓ Equipping the LMS on Sidia
Additional	Course RPS has not been filled in completely in SIDIA (Sinau Digital Unesa) by the lecturer in charge of the course	Not yet equipped	Completed immediately

d. Study Program: Master of Electrical Engineering

Item No.	Problem Description	Root of the Problem	Follow-up Plan
2	RPS has been validated by a team in the science clump	Poor document checking process	Need to improve performance and management of the documents required in learning
20	The questions in the mid-term test have been validated (measuring <i>high order thinking</i>)	Poor document checking process	Need to improve performance and management of the documents required in learning

e. Study Program: S1 Building Engineering Education

Item No.	Problem Description	Root of the Problem	Follow-up Plan
32	Lecturers have not compiled rubrics for the assessment of mid-term tests and UAS	There is no assessment rubric	Assessment rubric is prepared
33	UTS has not yet been implemented according to the schedule stated in the RPS	Implementation of UAS is delayed from the original schedule	For the next semester carry out the midterm test according to the planned schedule
34	Test results are not yet available handed back to students	UTS assessment not yet completed	Immediately hand back the assessed UTS results
Additional	Sidia usage needs to be maximized	<ul style="list-style-type: none"> ✓ RPS on sidia has not been filled in completely ✓ <i>Learning Management System (LMS)</i> courses have not been filled in by lecturers in full on SIDIA (Sinau Digital Unesa) ✓ Not yet uploaded the student's Draft Task (RTM) on the Sidia application ✓ Lecturers are still in the process of learning the 	<ul style="list-style-type: none"> ✓ Organizing a workshop on the use of Sidia for all study program lecturers ✓ Complete RPS on Sidia ✓ Equipping the LMS on Sidia ✓ Uploading student assignment plans (RTM) on the Sidia application

		application Sidia

f. Study Program: S1 Civil Engineering

Item No.	Problem Description	Root of the Problem	Follow-up Plan
29	Lecturers have not returned graded assignments to students.	Assignments have not been returned because corrections have not been completed	Task return can be done by the system
Additional	Sidia usage needs to be maximized	✓ <i>Learning Management System (LMS) eyes</i>	✓ Organize training or workshops on the use of
Item No.	Problem Description	Root of the Problem	Follow-up Plan
		lectures have not been filled in by lecturers in full on SIDIA (Sinau Digital Unesa) ✓ Not yet uploaded the student's Draft Task (RTM) on the Sidia application ✓ Lecturers are still in the process of learning the Sidia application	Sidia to all lecturers of the study program ✓ Equipping the LMS on Sidia ✓ Uploading student assignment plans (RTM) on the Sidia application

g. Study Program: S1 Informatics Engineering Education

Item No.	Problem Description	Root of the Problem	Follow-up Plan
29	Lecturers have not provided an assessment of the assignments given to student	The number of additional assignments makes assignment corrections carried out at the end of the semester	If possible, correction or assessment can be done by system so that it is easy
30	Lecturers have not returned assignments that has been assessed to students.	Assignments have not been returned because corrections have not been completed	Task return can be done by the system
31	The questions in the mid-term test have not been validated (measuring high order thinking)	Lecturers have not done validation when conducting UTS	Lecturers validate before the midterm exam
32	Lecturers have not compiled rubrics for the assessment of mid-term tests and UAS	There is no assessment rubric	Assessment rubric is prepared

34	UTS results are handed back to students	UTS assessment not yet completed	Immediately hand back the assessed UTS results
Additional	Sidia usage needs to be maximized	<ul style="list-style-type: none"> ✓ <i>Learning Management System (LMS)</i> courses have not been filled in by lecturers in full on SIDIA (Sinau Digital Unesa) ✓ Has not completed and has not uploaded the student assignment design (RTM) on the Sidia app 	<ul style="list-style-type: none"> ✓ Equipping the LMS on Sidia ✓ Uploading student assignment draft (RTM) on Sidia application

h. Study Program: S1 Information Systems

Item No.	Problem Description	Root of the Problem	Follow-up Plan
2	RPS has not been validated by the team in the science clump	The RPS used has not been validated.	The RPS used is immediately requested for validation
5	The RPS does not yet contain learning strategies that reflect <i>student center learning</i> with learning models: a. Team-based Project*	The RPS does not yet use learning strategies that fully reflect <i>student center learning</i> .	Adjust the RPS to include learning strategies that reflect <i>student center learning</i> .
Item No.	Problem Description	Root of the Problem	Follow-up Plan
	b. Case Method*		
6	The RPS does not yet contain information about the latest teaching materials (recommended maximum of the last 10 years) and from the results of research and community service. society.	Reference not yet updated	Update references immediately
12	Lecturers and students agree on a contract lecture at the first meeting	Not yet done at the beginning of the lecture	For the next semester at the beginning of the lecture at the first meeting make contract agreements with students
13	Lecturers have not explained the contents of the RPS as well as the form and mechanism of assessment to students in the RPS. first meeting	RPS exposure has not been done yet	For the next semester at the beginning of the lecture at the first meeting, present the RPS to students
14	Lecturers have not carry out lectures according to the SIDIA schedule	The amount of activity in the study program makes a schedule shift	For the next semester, it is necessary prepared from the beginning so that it can run according to schedule
29	Lecturers have not returned graded assignments to students.	Assignments have not been returned because corrections have not been completed	Task return can be done by the system

31	Lecturers have not compiled rubric for midterm and final exam assessment	There is no assessment rubric	Assessment rubric is prepared
Additional	Sidia usage needs to be maximized	<ul style="list-style-type: none"> ✓ <i>Learning Management System (LMS)</i> courses have not been filled in by lecturers in full on SIDIA (Sinau Digital Unesa) ✓ Has not completed and has not uploaded the student assignment design (RTM) on the Sidia app 	<ul style="list-style-type: none"> ✓ Equipping the LMS on Sidia ✓ Uploading student assignment draft (RTM) on Sidia application

i. Study Program: S1 Informatics Engineering

Item No.	Problem Description	Root of the Problem	Follow-up Plan
14	Lecturers have not conducted lectures according to SIDIA schedule	The number of activities in the study program makes schedule shift	For the next semester, it is necessary to prepare in advance so that it can be running according to schedule
28	Lecturers have not provided an assessment of the assignments given to student	The number of additional assignments makes assignment corrections carried out at the end of the semester	If possible, correction or assessment can be done by system so that it is easy
31	Lecturers have not compiled rubric for midterm and final exam assessment	There is no assessment rubric	Assessment rubric is prepared
Additional	Sidia usage needs to be maximized	<ul style="list-style-type: none"> ✓ Have not uploaded the student's Draft Task (RTM) on the Sidia app 	<ul style="list-style-type: none"> ✓ Uploading student assignment plans (RTM) on the Sidia application

j. Study Program: Bachelor of Culinary Education

Item No.	Problem Description	Root of the Problem	Follow-up Plan
2	RPS has not been validated by the team in the Catering science family	Lecturers have not submitted RPS validation to team in the Culinary Science family	RPS validation was carried out by a team in the Catering science family
3	The RPS that has been developed has not been approved by the Koorprodi	Koorprodi has not validated the RPS that has been developed in harcopy but in sidia already validated	Ratification of the RPS that has been developed by Koorprodi
4	The RPS does not yet contain matkul learning outcomes (CPMK) according to KKNI which consists of knowledge, attitudes, general skills and skills. special	RPS does not yet contain matkul learning outcomes (CPMK) according to KKNI	The addition of learning outcomes (CPMK) consisting of knowledge, attitudes, general skills and special skills according to KKNI is carried out.
Additional	Sidia usage needs to be maximized	Have not uploaded the Draft Assignment student (RTM) on the Sidia app	Uploading student assignment plans (RTM) on the Sidia application

k. Study Program: S1 Fashion Education

Item No.	Problem Description	Root of the Problem	Follow-up Plan
4	The RPS has not yet contained learning outcomes according to KKNI which consists of knowledge, attitudes, general skills and specialized skills	Lecturers have not updated the RPS	Update RPS immediately
28	Lecturers have not provided an assessment of the assignments given to student	The number of additional assignments makes assignment corrections carried out at the end of the semester	If possible, correction or assessment can be done by system so that it is easy
29	Lecturers have not returned graded assignments to students.	Assignments have not been returned because corrections have not been completed	Task return can be done by the system
30	The questions in the mid-term test have not been validated. (measuring high order thinking)	Lecturers have not done validation when conducting UTS	Lecturers validate before the midterm exam

l. Study Program: S1 Cosmetology Education

Item No.	Problem Description	Root of the Problem	Follow-up Plan
2	RPS has not been validated by team in the science family	Lecturers have not submitted validation to the clump	Validating the RPS by the Team in science clusters
31	Questions in the mid-term test not yet validated	Lecturer has not submitted validation	Test questions validated
Item No.	Problem Description	Root of the Problem	Follow-up Plan
	(measuring <i>high order thinking</i>)		
Additional	Sidia usage needs to be maximized	<ul style="list-style-type: none"> ✓ <i>Learning Management System (LMS)</i> courses have not been filled in by lecturers in full on SIDIA (Sinau Digital Unesa) ✓ Has not completed and has not uploaded the student assignment design (RTM) on the Sidia app 	<ul style="list-style-type: none"> ✓ Equipping the LMS on Sidia ✓ Uploading student assignment plans (RTM) on the Sidia application

A. Generic Description

The Faculty of Engineering at State University of Surabaya oversees five clusters, namely the clusters of Electrical Engineering, Mechanical Engineering, Civil Engineering, PKK and Informatics Engineering with thirteen undergraduate programs (S1) and one master program (S2). Learning carried out in the even semester of 2023/2024 is carried out in a *hybrid* manner: a combination of online and offline lectures in accordance with the provisions of the COVID-19 health protocol.

Based on the results of monitoring and evaluation (monev) of learning, study programs at the Faculty of Engineering have implemented the curriculum by including learning preparation,

making lesson plans that have led to the latest OBE-based curriculum (*outcome-based education*) and have used a *student centered* approach. By applying this approach, almost all students are actively involved in all learning processes, thus creating a conducive academic atmosphere in teaching and learning.

In general, the learning M&E found some discrepancies, such as changes in the mid-semester exam schedule, the results of the assignment assessment have not been returned, or there is no validation of the study program coordinator on the RPS, the RPS in Sidia is incomplete, and the RTM in Sidia is incomplete. However, these discrepancies do not directly affect the learning process. Learning M&E is carried out regularly and is driven by the Quality Assurance Group (GPM) of the Faculty of Engineering. This is thanks to good cooperation and coordination between study programs through UPM with GPM Faculty of Engineering, and BPM Unesa.

The availability of infrastructure and implementation of health protocols for learning and offline has been prepared by each study program and is suitable for use.

B. Attachment:

a. Lecturer Learning Monitoring Results (instrument)

b. Minutes of Monitoring Lecturer Learning

c. Documentary evidence that is required by the instrument,

(evidence in the form of *screenshots* can be added directly in the "Evidence / Testimony" column, as well as if the material is in the form of a link / link can also be added directly to the column. Evidence is uploaded on the *gdrive link* provided)

The course RPS has been filled in completely on SIDIA (Sinai Digital Unesa) by the lecturer in charge of the course.

32 answers

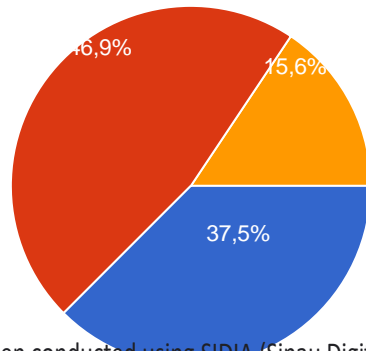

- Yes, the RPS has been made by the lecturer in full
- Incomplete, but filled in
- Not filled in at all

Learning Management System (LMS) courses have been filled by lecturers in full on SIDIA (Sinai Digital Unesa)

32 answers

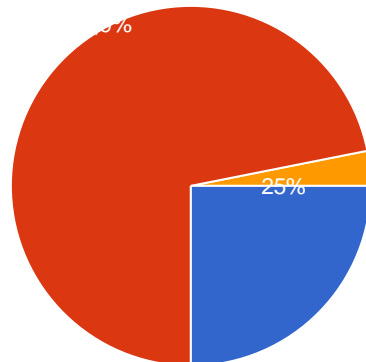

- Yes, the LMS has been fully populated by lecturers
- Incomplete, but has partially filled in the LMS
- Have not filled in the LMS at all

Course tests have been conducted using SIDIA (Sinai Digital Unesa) by the lecturer in charge of the course.

32 answers

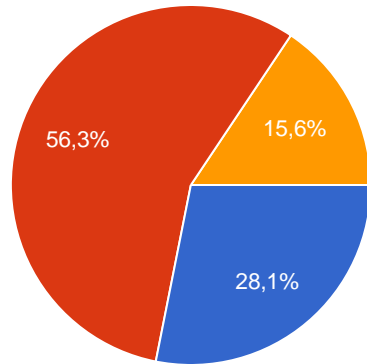

- Yes
- No, using other applications or carried out offline
- Not yet implemented UTS (implementation of UTS is not according to the schedule in the RPS)

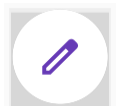

The student assignment design (RTM) has been uploaded to the OBE RPS on SIDIA (Sinai Digital Unesa).

32 answers

- Yes, the student's Draft Assignment (RTM) has been uploaded.
- No, but the student assignment plan (RTM) is already in place.
- Have not made a student assignment design (RTM) according to the format

What are the obstacles for course lecturers when using SIDIA (Sinau Digital Unesa)

32 answers

.

Not used to it yet

The course RPS has not been filled in completely in SIDIA (Sinau Digital Unesa) by the lecturer teaching the course.

when filling in the LMS, there are some that are not saved the operation is still a bit

complicated such as filling in the LMS access to SIDIA there are still complexities

Too many features that are not yet understood cannot

upload RTM and LMS Must fill in one by one

still in process

Still in the process of learning the application has not

recognized the features and flow of the system Not yet

understood so not used to it

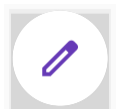

learning is more calculations so it is done offline Time constraints for uploading

Time constraints None

Many features to be completed

application

What is your input as a lecturer for the ease of use of SIDIA (Sinau Digital Unesa) in learning?

32 answers

-
Need for some kind of internal training at the FT level related to SIDIA (Sinau Digital Unesa)

SIDIA application needs to be developed again

it is necessary to simplify the operation in SIDIA, especially in filling in the LMS, please simplify access to the SIDIA application again.

Training for each study program Workshop

Workshop per study program

Need good training and easy-to-understand tutorials on RTM uploading.

added manual usage more user friendly display

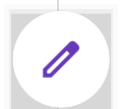

no special training

Continue to provide SIDIA workshops and require lecturers to use SIDIA.

there is a special policy that requires the use of SIDIA and assistance to lecturers on a regular basis

structured training to lecturers

material / PPT should already exist before the learning process begins even though learning is offline to make it easier for students to repeat the material that has been

learned

Can be uploaded directly from the file

kemudhan in uploading on SIDIA

Sidia filling assistance

at the next level

playstore special sidia provided

Feature socialization and feature simplification

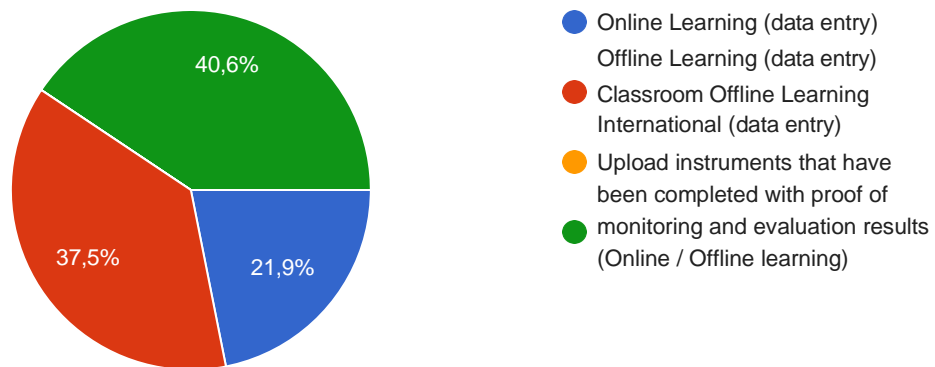

need for re-socialization

workshop

May 17, 2024	A3 Makeup Lab	Nia Kusstianti, S.Pd., M.Pd.

STATEMENT

I, as the lecturer in charge of the **Design Crop** course, declare that the data filling and information answers to all these questions are correct, and open to verification by the Unesa Quality Assurance Agency Team.

Surabaya, May 17,
2024 Lecturer,

Octaverina K. Pritasari, S.Pd., M.Farm
NIP 198008022008122002

Instructions for Filling: Please select "Yes" or "No" in the column provided by marking (√) according to your choice.

NO.	STATEMENT	YES	NOT	EVIDENCE/CONFIRMATION
A. Teaching Preparation				
1	RPS is designed and developed by lecturers independently / in groups in accordance with the development of science and technology.	√		
2	The RPS has been validated by the team in science clusters		√	-
3	The developed RPS has been approved by the Head of Study Program.	√		
4	RPS has contained learning outcomes according to KKNI which consists of knowledge, attitudes, general skills and special skills	√		
5	The RPS has included learning strategies that reflect <i>student center</i> learning with learning models: a. Team-based Project* b. Case Method*	√		
6	RPS has contained information about the latest teaching materials (recommended maximum of the last 10 years) and from the results of research and community service.	√		

7	The RPS has contained techniques, forms and examples of assessment instruments (design of assessment of learning outcomes and processes)	√		
---	------------------------------------------------------------------------------------------------------------------------------------------	---	--	-------------------------------------------------------------------------------------

NO.	STATEMENT	YES	NOT	EVIDENCE/CONFIRMATION
30	Lecturers return graded assignments to students.	√		
31	The questions in the mid-term test have been validated (measuring <i>high order thinking</i>)		√	
32	Lecturers compile the rubric for the assessment of UTS and UAS	√		
33	UTS is carried out in accordance with the schedule stated in the RPS	√		
34	UTS results are handed back to students	√		
35	UTS questions are in accordance with the learning material	√
