- Lecturers with Master's Degrees: 8 people

PROGRAM'S PROFILE

The Islamic Economics Undergraduate Study Program is a study program under the Faculty of Economics and Business, Surabaya State University, which was established in 2014 as a response to the development of Islamic economics in Indonesia and globally.

As UNESA's vision, the Islamic Economics Undergraduate Study Program has a vision to become a study program with a global reputation in the application of Islamic Economics based on Islamic Entrepreneurial Leadership which is committed to educating quality human resources so as to create graduates who are competitive in the fields of Islamic Economics, Islamic Finance, and Islamic Business.

The Islamic Economics Undergraduate Study Program has competent resources in their fields, has good recognition at home and abroad and has an international cooperation network that can support various activities carried out in the Islamic Economics Undergraduate Study Program.

The Islamic Economics Undergraduate Study Program also applies international education standards to create graduates who are able to adapt well in a dynamic global environment.

The Islamic Economics Undergraduate Study Program has international classes with learning implementation using English and students will get international exposure during the 4-year study period.

CURRICULUM

Undergraduate Program

The curriculum of the Islamic Economics Undergraduate Study Program FEB Unesa is an Outcome Based Education (OBE) based curriculum that allows students to be actively involved in the learning process and be able to achieve the expected learning outcomes.

The curriculum is designed in line with the vision of the Islamic Economics Undergraduate Study Program with competencies prepared to support graduates to become practitioners in the Islamic finance industry, entrepreneurs, and/or research assistants in the fields of economics, finance, and Islamic Business by implementing the values of Islamic Entrepreneurial Leadership and being able to adapt well in a dynamic global environment.

The Islamic Economics Undergraduate Study Program focuses on 3 scientific fields, namely Islamic Economics, Islamic Finance, and Islamic Business. The curriculum of the Islamic Economics Undergraduate Study Program has a flexible curriculum structure to support international cooperation programs such as mobility programs or joint degrees with partner campuses.
