Your answer

Dear. Students, On March 14, 2020, the Government of Indonesia has declared an emergency in the form of a pandemic. This has led to a ban on face-to-face learning, so that all universities are required to only hold online learning.

We conducted a survey to find out what students think about online learning during the pandemic. We hope that the results of this survey can improve the quality of education in the future while facilitating the implementation of online learning in accordance with the curriculum. Student participation is voluntary and anonymous.

In part I is profile and demographic data, part II is about knowledge, social skills and skills in using media, and part III is describing online learning during a pandemic.

Thank you for your participation.

Regards,

The Research Team *

Put a tick (V) if you participate in this questionnaire

PART I

Profile and Basic Demographics

Gender *

woman

man

How old are you *

17 - 19 Years

20 - 22 Years

23 - 25 Years

25 Years

Category of study program *

The Education

Non-education

Level of your education *

D-3/Associate degree

Bachelor

Master

Doctor

The academic year/student status (which semester) *

The Name of university*

Your answer

Overview of mastery of technological skills possessed.

The Dominate of technology skills *

high

average

low

Online learning before the pandemic*

ever

never

The platform for online learning* :

Whatsapp

Zoom

Google meet

E-learning campus

The University E-learning

The other

If other answers, please state the learning platforms*:

PART II

Advantages and disadvantages of online learning

What are the advantages of online learning (choose > 1) *

Independent and structured learning

Learning while working

Getting a recording of every lesson

Interactive class

Low budget

A Conducive and comfortable environment

Easy to access learning material on online

What are the disadvantages of online learning (choose > 1) *

Minimum interaction students

Minimum interaction with teachers

The study from home and not convenience

Low motivation learning

Low disciplines

Technical problems when learning takes place

There is social isolation

PART III

Knowledge, social competence and skills in using media

Students' understanding of online lectures with lecturers*

Unhurried
