4 QUALITY EDUCATION

SDG 4 PROGRESS REPORT

Quality Education

How UNESA, a teacher-training university, opened its courses, events, training and classrooms to people beyond its own students in 2025 and 2026

Pupils of SMAN 18 Surabaya learn to make herbal yoghurt in a session run by UNESA's Master's programme in Biology Education, 3 to 4 August 2026.

SDG 4 AT A GLANCE

A teacher university open to everyone

SDG 4 asks universities to give everyone the chance to keep learning: through free resources, public events, vocational training and outreach beyond campus, backed by rules that keep that learning open to all. This report sets out what UNESA did in each of these in 2025 and 2026. THE Impact Rankings 2026 placed UNESA in the 101–200 band for SDG 4.

HOW UNESA WORKS ON SDG 4

UNESA trains teachers, and its work on SDG 4 runs through its faculties and study programmes. The Directorate of Digital Learning Innovation runs Grownesa, UNESA's course platform. The Institute of Professional Education and Certification (LPSP) trains teachers and professionals from outside the university. Faculties, study programmes and student organisations run public events and outreach in schools and villages, the Centre of Excellence for Disability Science shares inclusive education with educators, and the SDGs Center coordinates UNESA's SDG reporting.

This report is one of seventeen: UNESA reports its progress on each SDG separately, and each report links to the full evidence pages, with every source, at sdgscenter.unesa.ac.id.

POLICY AND GOVERNANCE

Rules that keep learning at UNESA open to all

UNESA's Statute, Code of Ethics and Rector's regulations make inclusive and lifelong learning core values, name the grounds on which no one may be treated differently, and open certified short courses to the general public.

5

core values in UNESA's Statute (20 October 2022), among them inclusive and lifelong learning

3 May 2024

Rector's Regulation Number 11 names the grounds on which no one may be treated differently

7 May 2026

Rector's Regulation Number 16 opens UNESA's certified short courses to the general public

THE STATUTE

UNESA's Statute, Government Regulation Number 37 of 2022, names five core values: Pancasila, scientific, entrepreneurship, inclusive and lifelong learning (Article 7). It requires UNESA to run community service that helps educate the nation and advance public welfare (Article 23(1)), and lets foreign nationals become UNESA students (Article 73(3)). The Strategic Plan 2025 to 2029 makes the same five values the basis of UNESA's programmes.

THE CODE OF ETHICS

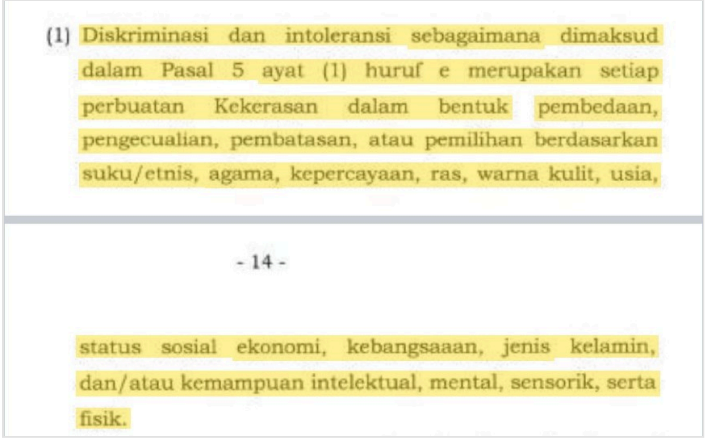

Rector's Regulation Number 32 of 2022, set on 12 December 2022, bars lecturers, the academic community and education staff from discriminatory behaviour (Article 3(5)). It asks lecturers to share their knowledge with the public (Article 4) and to respect the community's say in community-service programmes (Article 10(4)). The free courses, public lectures, training and school outreach in this report are run by these lecturers and staff.

GROUNDS THAT ARE NAMED

Rector's Regulation Number 11 of 2024, set on 3 May 2024, defines discrimination as any distinction, exclusion, restriction or selection based on ethnicity, race, skin colour, religion, belief, age, socio-economic status, nationality, sex, or intellectual, mental, sensory and physical ability (Article 11(1)). It makes gender justice and equality, and equal rights and accessibility for persons with disabilities, two of its principles (Article 3(c) and (d)). The Statute, the Code of Ethics and this regulation were all in force throughout 2025.

OPEN TO THE PUBLIC

Rector's Regulation Number 16 of 2026, set on 7 May 2026, aims to widen access to lifelong learning (Article 2(a)) and lets anyone from the general public take part in UNESA's certified short courses, its microcredentials (Article 4). Its guideline, Rector's Regulation Number 17 of 2026, asks for flexible and inclusive access for different groups of learners. On 26 May 2026 UNESA briefed lecturers from all its faculties, including its Magetan campus, on launching the programme.

(1) Diskriminasi dan intoleransi sebagaimana dimaksud dalam Pasal 5 ayat (1) huruf e merupakan setiap perbuatan Kekerasan dalam bentuk pembedaan, pengecualian, pembatasan, atau pemilihan berdasarkan suku/etnis, agama, kepercayaan, ras, warna kulit, usia,

- 14 -

status sosial ekonomi, kebangsaaan, jenis kelamin, dan/atau kemampuan intelektual, mental, sensorik, serta fisik.

IN THE POLICY

Rector's Regulation Number 11 of 2024, set on 3 May 2024, Article 11 paragraph (1), pages 13 to 14: the grounds on which discrimination is prohibited, including ethnicity, religion, nationality, sex, and intellectual, mental, sensory and physical ability. Highlight added.

FREE COURSES AND ONLINE RESOURCES

Free certified courses for anyone, and conferences that stay online

UNESA gives people who are not its students free courses that end in a certificate, free webinars and free recordings of its international conferences.

25

free courses with an official certificate on UNESA's Grownesa platform, 30 October 2026

4,326

learners enrolled in them, from 36 to 495 in each course

14

international conferences streamed on YouTube, free to watch, in 2025 and 2026

GROWNESA

Grownesa (kursus.unesa.ac.id) is UNESA's own course platform, run by the Directorate of Digital Learning Innovation. It describes itself as open, flexible and inclusive learning for anyone, anywhere, on any device and at any time. The courses cover teaching (AI and digital media for teachers, inclusive education, coding for children), research skills (scientific publishing, academic editing), well-being (mental health literacy, psychological first aid) and work skills (public speaking, financial management for entrepreneurs).

WEBINARS WITH E-CERTIFICATES

UNESA's study programmes open webinars to the public free of charge. In May 2026 the Doctoral programme in Education Sciences ran two national webinars for parents and the general public, on positive parenting and on digital parenting, each ending with an e-certificate. The Master's programme in Chemistry ran a webinar series in 2026 on environmental chemistry (30 January) and on chemistry and biodiversity for the green economy (9 February), with speakers from Universitas Airlangga and the National Research and Innovation Agency (BRIN).

CONFERENCES THAT STAY ONLINE

UNESA's faculties and directorates stream their international conferences live on YouTube, and the recordings stay free to watch. In 2025 they included ICoGESF on green engineering (5 July) and ICOSBI on the SDGs and bibliometric studies (12 July); in 2026 they included the 7th ICCSAL of the Faculty of Languages and Arts (8 August).

A STADIUM FOR THE COMMUNITY

UNESA also opened its athletics stadium on the Lidah Wetan campus to the public free of charge, every day from 05.00 to 22.00, and extended the free entry to 31 July 2026, so that families, sports communities and outside organisations had a safe place to keep fit.

FREE LEARNING OPEN TO THE PUBLIC, 2025 AND 2026

DATE	ACTIVITY	RUN BY	FORMAT
5 Jul 2025	1st International Conference on Green Engineering (ICoGESF)	UNESA	Streamed
12 Jul 2025	3rd International Conference of SDGs and Bibliometric Studies	Directorate of Innovation, Rankings and Scientific Publications	Streamed
Jan and Feb 2026	Webinar Series on environmental chemistry and biodiversity	Master's programme in Chemistry	Online
30 Oct 2026	25 free certified courses on Grownesa	Directorate of Digital Learning Innovation	Free

PUBLIC EVENTS

Festivals, lectures and exhibitions open to visitors

UNESA's directorates, faculties and study programmes opened events to the public in 2025 and 2026. Most were free, and some charged a fee.

21
countries whose cultures students presented at the International Cultural Festival, 3 October 2025

79
products by lecturers and students shown at the INNOVNESA #3 exhibition, 24 to 26 November 2025

170+
student teams in the Psychopreneur 2026 exhibition and bazaar, 4 to 7 May 2026

TWO LARGE EVENTS IN 2025

On 3 October 2025 the Directorate of International Affairs held the International Cultural Festival, with booths for language learning open to visitors, school pupils among them. From 24 to 26 November 2025 the Directorate of Innovation, Rankings and Scientific Publications held INNOVNESA #3, the UNESA Innovation Product Exhibition. The Faculty of Medicine's stand drew hundreds of visitors, teachers and pupils among them, and gave a free dental check-up to ten visitors a day and free toothpaste to every participant.

LECTURES AND SEMINARS

On 7 November 2025 the History Education programme held an online guest lecture on European co-imperialism and Indonesia with a doctoral candidate of the University of Amsterdam, attended by more than 250 people, members of the public among them. On 10 April 2026 the Faculty of Law held an international seminar on the future of work, open to the public. From 18 to 22 May 2026 the Faculty of Mathematics and Natural Sciences hosted a general lecture by a visiting professor from Ghana, free for the general public.

EXHIBITIONS

The Faculty of Psychology held Psychopreneur 2026, an exhibition and bazaar open to the public and free to visit. The German Education programme showed teaching media made by its students at QUESTOFIA 2026, with no entry ticket.

EVENTS WITH A FEE

Some events charge for entry. The Faculty of Languages and Arts held Sengkuni 7: Harmony, an international art exhibition, from 13 to 17 November 2025, with tickets at Rp15,000 (Rp20,000 at the door). The Master's programme in Mathematics ran Exploring Mathematical Modeling from 21 to 26 September 2026 with three partner universities, for students and general participants from Indonesia and abroad.

PUBLIC EVENTS IN 2025 AND 2026 WHOSE SOURCE STATES THE ENTRY FEE

DATE	EVENT	HOST	ENTRY
13 to 17 Nov 2025	Sengkuni 7: Harmony International Art Exhibition	Faculty of Languages and Arts	Rp15,000; Rp20,000 at the door
3 Jun 2026	QUESTOFIA 2026 teaching media exhibition	S1 German Education	Free, no ticket
21 to 26 Sep 2026	Exploring Mathematical Modeling 2026	Master's programme in Mathematics, with three partner universities	Rp500,000 to Rp1,500,000; USD 100 abroad

VOCATIONAL AND EXECUTIVE TRAINING

Training for working people who are not UNESA students

UNESA runs standing vocational courses through its professional education institute, delivers national teacher training, and adds one-off courses for coaches, teachers, residents and partner universities abroad.

4
LPSP competency courses opened to anyone for enrolment on 30 July 2026, each ending in a certificate

5
stages in the coding and AI teacher training LPSP runs for the Surabaya area, from July 2025

30
football coaches on the PSSI Coaching License D course, 1 to 6 June 2026

STANDING COURSES

Through the Institute of Professional Education and Certification (LPSP), UNESA runs vocational competency courses for the public. On 30 July 2026 LPSP opened enrolment for four: starter make-up, international bridal make-up, Solo Puteri bridal make-up and starter barber classes, of five to eight meetings, from Rp500,000 to Rp3,500,000. Classes start from three participants, on the Ketintang campus and at Campus 5 in Magetan, and every participant receives an official LPSP UNESA certificate.

CODING AND AI FOR TEACHERS

With the Surabaya City Education Office, LPSP runs the training and registration of primary and senior secondary teachers in the Surabaya area for the coding and artificial intelligence programme of the Ministry of Primary and Secondary Education, which started in July 2025. It runs in five stages, from an introduction to classroom practice and a follow-up plan. A lecturer of UNESA's Artificial Intelligence programme took part in the Training of Trainers as a facilitator.

ONE-OFF COURSES

Faculties and study programmes add courses of their own. Residents of RW VI Kupang Gunung, Surabaya, learned hand-painted ecobag making in July 2025. Indonesian-language teachers from five regencies and cities learned to write test items for the academic competency test at Campus 5 in Magetan on 20 May 2026, and the science teachers of Surabaya joined a STEM teaching webinar on 5 December 2025.

LANGUAGE FOR PARTNER UNIVERSITIES

UNESA's programme in Indonesian for foreign speakers (BIPA) ran a one-month short course for five students of Busan University of Foreign Studies, South Korea, from 13 July to 7 August 2026, with language classes and cultural visits around Surabaya and Mojokerto.

EXECUTIVE EDUCATION AND VOCATIONAL TRAINING FOR PEOPLE NOT ENROLLED AT UNESA, 2025 AND 2026

BASIS	COURSE OR TRAINING	WHO TOOK PART	WHERE	DATE
Programmed	Make-up and barber competency courses, LPSP certificate	Open enrolment	Ketintang and Magetan	From 30 Jul 2026
Programmed	Coding and AI training (ministry programme)	Surabaya-area teachers	LPSP, online platform	From Jul 2025
Ad hoc	PSSI Coaching License D course	30 football coaches	Probolinggo	1 to 6 Jun 2026
Ad hoc	BIPA Indonesian language short course	Five Korean students	Surabaya, Mojokerto	13 Jul to 7 Aug 2026

TEACHERS

UNESA trains teachers across East Java

As a teacher-training university, UNESA also brings new classroom skills, in artificial intelligence, mathematics and inclusive teaching, to serving teachers who are not its students.

3,670
of UNESA's 7,393 graduates in 2025 qualified to teach at primary school level

5 days
AI course for the ICT teachers of Surabaya's senior high schools, 7 to 11 July 2025

78
early childhood teachers of Kedungkandang, Malang, trained with Universitas Negeri Malang, 27 and 28 July 2026

8
months of training for the teachers of SDIT Madani, Sidoarjo, April to November 2026

ARTIFICIAL INTELLIGENCE IN THE CLASSROOM

From 7 to 11 July 2025 UNESA's Data Science and Artificial Intelligence programmes ran a five-day course on the Ketintang campus for the ICT teachers of Surabaya's senior high schools, covering computational thinking, Python, AI literacy, prompt engineering and the ethics of AI in education. Each teacher ended it by presenting a Python and AI project of their own.

On 26 July 2025 five lecturers of the Faculty of Mathematics and Natural Sciences trained 20 junior high mathematics teachers of Mojokerto to design teaching modules with ChatGPT. On 9 May 2026 the Doctoral programme in Educational Technology trained the teachers of a Surabaya foundation, from kindergarten to vocational school, to bring AI into teaching, and on 21 July 2026 the Information Technology Education programme did the same for teachers of SMKN 10 Surabaya. A deep learning and AI session followed for primary teachers of Blitar on 10 August 2026.

MATHEMATICS

In July 2026 ten lecturer teams of the Mathematics cluster trained primary and lower-secondary teachers of Jombang with the Jombang Education Office, and a team of five lecturers coached the district's primary teachers in olympiad problem-solving. On 18 July 2026 a team trained 20 teachers of Kota Sumenep to teach mathematics through the culture of the keris. From April to November 2026 UNESA lecturers and Universitas PGRI Delta ran a scheduled programme for the grade 1 to 6 teachers of SDIT Madani, Sidoarjo: in May and June they turned local resources such as the milkfish industry and markets into numeracy lessons, and in August they trained the teachers to build interactive flipbooks and use generative AI.

INCLUSIVE AND SAFE CLASSROOMS

On 11 September 2026 the Special Education programme trained early childhood and kindergarten teachers at SDN 7 Kampungdalem, Tulungagung, in school-based disability counselling built on a partnership between teachers and parents. On 27 and 28 July 2026 UNESA and Universitas Negeri Malang taught 78 early childhood teachers to recognise bullying and to build their own augmented reality media, and gave virtual reality headsets to the teachers' association for shared use across the district.

Teachers of Surabaya's senior high schools work at computers in the Data Science laboratory on the Ketintang campus during UNESA's five-day AI course, 7 to 11 July 2025.

OUTREACH BEYOND CAMPUS

Lessons, training and service in villages and schools

UNESA's students and lecturers take their teaching to the places where people live and learn: village schools, community centres and classrooms across East Java and beyond.

2

village weeks of Mathematics Care and Share: Mojokerto in August 2025 and Lamongan in July 2026

48

law students assigned to the nine villages of Sukomoro, Magetan, from 7 July 2026

23

student teachers from seven programmes who taught at SMA Kartika IV-3 Surabaya, 9 February to 15 June 2026

MATHEMATICS CARE AND SHARE

Each year UNESA's mathematics students spend a week in a village. In Desa Rejosari, Mojokerto, from 10 to 17 August 2025, they assisted the teachers of SDN Rejosari in class, taught Quran reading to children at the village centre, ran a quiz for pupils and held a branding and digital marketing workshop for new village entrepreneurs. In Desa Jatipandak, Lamongan, from 20 to 26 July 2026, they taught at MI Darussalam, ran tutoring and reading sessions.

THE FACULTY OF LAW IN SUKOMORO

On 7 July 2026 the Faculty of Law launched Fakultas Hukum Berdampak (Faculty of Law Makes an Impact) as a standing programme for all nine villages of Kecamatan Sukomoro, Magetan. Its 48 law students continue fieldwork to help village governments draft legal instruments, strengthen governance and raise residents' legal literacy.

STUDENTS IN THE CLASSROOM

On 26 September 2025 a team of the Faculty of Vocational Studies taught 17 pupils of the Indonesian School in Bangkok leadership, t-shirt decoration and food preparation. On 21 October 2025 community-service students taught 36 pupils at SD Negeri Plaosan 3, Magetan, to save money, and on 20 November 2025 the student organisation STOPIA ran a day of lessons, games and crafts for 70 to 80 children at SDN Kedung Baruk, Surabaya. A mathematics education student tested AlgeUNO, an algebra card game, with pupils of SMP Negeri 7 Surabaya.

SESSIONS FOR PUPILS AND RESIDENTS

Staff and students also bring demonstrations straight to pupils. The Master's programme in Biology Education taught pupils of SMAN 18 Surabaya to make herbal yoghurt on 3 and 4 August 2026. Special Education students held an anti-violence and anti-narcotics session at SLB Harmoni, Sidoarjo, on 20 April 2026.

OUTREACH BEYOND CAMPUS, 2025 AND 2026

TIER	ACTIVITY	LOCATION	DATE
Programmed	MATHECS 2025	Desa Rejosari, Mojokerto	10 to 17 Aug 2025
Programmed	MATHECS 2026	Desa Jatipandak, Lamongan	20 to 26 Jul 2026
Programmed	Fakultas Hukum Berdampak launch	Sukomoro, Magetan	7 Jul 2026
Programmed	Eight-month teacher training in maths and AI	SDIT Madani, Sidoarjo	Apr to Nov 2026
Ad hoc	SDG-based lesson design training	Sekolah Insan Cendekia Mandiri	13 Aug 2025
Ad hoc	Legal literacy education	Desa Tremas, Pacitan	15 Jul 2026
Ad hoc	Herbal yoghurt demonstration	SMAN 18 Surabaya	3 to 4 Aug 2026

LEARNING FOR EVERYONE

Opening doors to students with disabilities and to children in need

UNESA's disability expertise reaches teachers and learners well beyond its campus, and its disaster team keeps lessons going for children whose schools were damaged.

21,832
students started a degree at UNESA in 2025, across all levels

47
new students with disabilities supported at the 2025 orientation

45
trained student assistants who accompanied them, August 2025

DISABILITY EXPERTISE SHARED

UNESA's Centre of Excellence for Disability Science (PUI Disabilitas) teaches learners and educators from outside the university. On 12 May 2026 its team trained the teachers of SLB Negeri 3 Bali, a special school, to use its Big Book adaptive learning media. From 22 to 24 September 2026 it taught an online course on inclusive learning for senior high and vocational school teachers across East Kalimantan.

On 14 October 2026 UNESA, the INOVASI programme and the Bunda PAUD of Surabaya opened a guidance series on inclusive education for early childhood educators from across the city, and on 26 October 2026 the centre and Sagasitas Indonesia trained students with disabilities from several universities around Surabaya in cloud computing and generative AI.

A WELCOME AT ORIENTATION

In August 2025 UNESA placed 45 trained student assistants beside the 47 new students with disabilities at its orientation for new students, to support them through the orientation.

LEARNING THAT GOES ON AFTER A DISASTER

In September 2026 UNESA sent a 15-person Peduli Bencana team, drawn from its Faculty of Medicine, Faculty of Psychology, crisis mitigation directorate and community-service institute, to Manggarai, East Nusa Tenggara, after the earthquake there. Alongside health care, psychosocial support and logistics, the team set up temporary schools in tents for displaced children and gave them lessons on school safety, so that the learning process would not stop. It planned online monitoring and teacher-mentoring support after the mission ended.

UNESA's Peduli Bencana team gives a lesson to pupils in a tent classroom set up after the earthquake in Manggarai, East Nusa Tenggara, 4 September 2026.
