SDGs' REPORT 2026 · SDG 11

Sustainable Cities and Communities

UNESA is opening its buildings, arts and heritage to the public and making its campuses easier to walk, live and work in.

Performers on stage at IMPROVE Vol. I, the festival of lecturers' new performing-arts works run by the Faculty of Languages and Arts at UNESA, 30 June to 2 July 2026.

SDG 11 AT A GLANCE

A campus that is open to its city

SDG 11 asks universities to protect and share local culture and heritage, and to make everyday campus life more sustainable. This report covers how UNESA opened its performance hall, museum, lake and journals to the public, put its arts on public stages and recorded local heritage, and how it supports walking, cycling, affordable student housing and flexible work. In the THE Impact Rankings 2026 UNESA is in the 401–600 band for SDG 11.

HOW UNESA WORKS ON SDG 11

The SDGs Center coordinates UNESA's work on the goals. The Center of Excellence in Arts and Culture Majapahitan, the Faculty of Languages and Arts and the study programmes in History, Communication Science and Graphic Design lead the arts and heritage work. The Directorate of Smart Sustainability Campus, under the Directorate of Innovation, Ranking and Scientific Publication, leads sustainable commuting, the Rusunawa unit runs student housing, and the Urban and Regional Planning programme works with local planning offices.

This report is one of seventeen: UNESA reports its progress on each SDG separately, and each report links to the full evidence pages, with every source, at sdgscenter.unesa.ac.id.

POLICY AND GOVERNANCE

Two Rector's circulars set the rules for how people move and work on campus

UNESA sets its sustainable campus practice in Rector's circular letters that apply to the whole university. One restricts motor vehicles and provides pedestrian areas. The other sets a week of four office days and one home-working day.

CLIMATE ACTION PLAN CIRCULAR, 31 JULY 2023

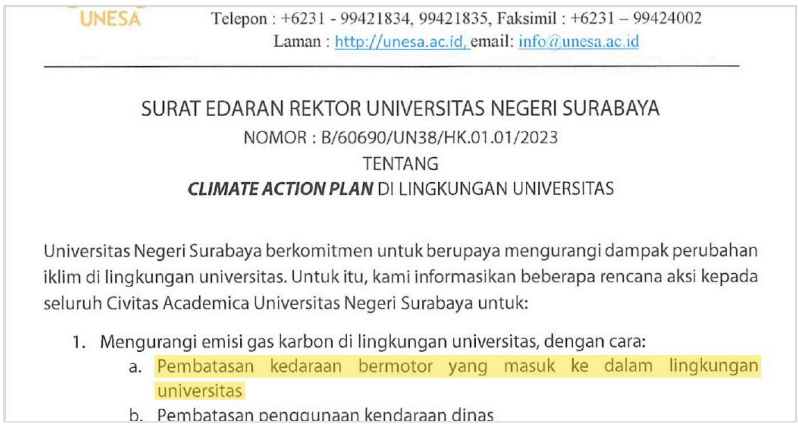

Rector's Circular Letter No. B/60690/UN38/HK.01.01/2023 on the Climate Action Plan within the university environment was set on 31 July 2023 and is addressed to the whole academic community. Under its action area on reducing carbon emissions, UNESA restricts motor vehicles entering the university environment (point 1a) and provides pedestrian areas for walkers (point 1e). The same list names a shuttle bus between campuses in place of private vehicles (point 1c) and electric bicycles as alternative transport (point 1d).

WORKING PATTERN CIRCULAR, 6 APRIL 2026

Rector's Circular Letter No. B/44908/UN38.II/HK.01.01/2026 sets the working pattern for all staff. It was issued on 6 April 2026 and applied from 10 April 2026. Employees of each work unit work from the office for four days, Monday to Thursday, and from home on Fridays. Lecturers can arrange their teaching so that each has one home-working day a week. The circular says its implementation will be monitored and evaluated periodically.

WHERE THE RULES SHOW ON THE GROUND

The Climate Action Plan circular shows on page 7, in 57,868 metres of paths and bike lanes across the campuses in 2025. The working pattern circular shows on page 8, beside the student residence and the planning partnerships with local government. Pages 5 and 6 cover the public performances and the heritage work that UNESA's faculties and study programmes run, and page 4 the hall, museum, lake and journals that anyone can use.

TENTANG
CLIMATE ACTION PLAN DI LINGKUNGAN UNIVERSITAS

Universitas Negeri Surabaya berkomitmen untuk berupaya mengurangi dampak perubahan iklim di lingkungan universitas. Untuk itu, kami informasikan beberapa rencana aksi kepada seluruh Civitas Academica Universitas Negeri Surabaya untuk:

1. Mengurangi emisi gas karbon di lingkungan universitas, dengan cara:
   a. Pembatasan kedaraan bermotor yang masuk ke dalam lingkungan universitas
   b. Pembatasan penggunaan kendaraan dinas

IN THE POLICY

Rector's Circular Letter No. B/60690/UN38/HK.01.01/2023 on the Climate Action Plan, set on 31 July 2023, point 1 letter a: restricting motor vehicles entering the university environment. Point 1 letter e, providing pedestrian areas for walkers, follows in the same list. Highlight added.

A HALL OPEN TO THE PUBLIC

UNESA opened Graha Sawunggaling, its performance hall at the Lidah Wetan campus, to the public free of charge for IMPROVE 2026, the International Meeting of Performing Art and Visual Expression, from 30 June to 2 July 2026. The Center of Excellence in Arts and Culture had already opened the same hall to visitors for its two-day Campus Tourism programme on 18 and 19 June 2025.

A MUSEUM ANYONE CAN VISIT

The History House Laboratory, in Building I7 of the Faculty of Social and Political Sciences, keeps artefacts, archives and coins, from prehistoric fossils and stone tools to Majapahit terracotta and colonial-era history. Visits are Monday to Friday, 08.00 to 15.00, on registration and with no admission charge. It received a Shanghai University delegation on 24 April 2025 and school groups on 7 January, 6 April and 7 October 2026. With the History Education programme it also opened the public exhibition Surabaya City of Heroes on 24 and 25 September 2025, with objects from five city museums and heritage houses.

A LAKE FOR THE NEIGHBOURHOOD

UNESA worked with the Surabaya city government and the civil service police to clear the campus lake, Danau UNESA, of street vendors. As reported on 19 June 2026, residents and students use it to relax, jog, fish and take photographs at no charge. In February 2026 the athletics field opened to the public for the Durenan Rek durian festival, with free entry, student bands and free massages from students of the massage therapy programme.

JOURNALS OPEN TO ALL

UNESA's journal portal, journal.unesa.ac.id, carries the university's peer-reviewed journals for anyone to read without registering, logging in or paying. Two started in this period: the Journal of Research in Midwifery and Healthcare, from the Faculty of Medicine, in 2025, and the Journal of Maxillofacial and Dental Sport Science in 2026.

WORLD DANCE DAY

On 29 April 2026 UNESA marked World Dance Day at Gedung Sawunggaling on its Ketintang campus. Its Student Dance Activity Unit and the Center of Excellence in Arts and Culture Majapahitan ran a relay of more than 30 dance troupes and community groups, with dozens of solo dancers, from 08:30 to 22:00 without a break. It was open to the public and drew thousands of spectators on site and online.

FESTIVALS IN 2026

In May 2026 visual-arts students ran the Rupo Jiwo festival at the Faculty of Languages and Arts, with performance art, a contemporary wayang kulit show and a free-style dance arena. On 17 May the UNESA kethoprak team performed Prawireng Jurit Majapahit at Universitas Negeri Yogyakarta's inter-university festival and placed third. On 20 May the Education of Social Sciences programme presented eight acts at the FESNUS Bazar, and on 1 July the faculty staged IMPROVE Vol. I.

PUBLIC STAGES IN 2025

UNESA's 61st anniversary on 26 September 2025 included a wayang kulit performance in the Lidah Wetan rectorate yard, open to the public and organised with the East Java Bakesbangpol. The Suara Senja evening series of music and traditional arts followed on 30 October, 13 November, 27 November and 11 December, and students staged a play and a fashion show in December.

RECORDING AND TEACHING HERITAGE

Students and lecturers record, digitise and teach local heritage

UNESA places students inside museums and culture offices, trains teachers to bring local heritage into the classroom, and retells folk tales with the provincial archive.

INSIDE LOCAL CULTURE OFFICES

In 2026 a Communication Science intern at the Sidoarjo Regency Education and Culture Office collected and digitised cultural data for the East Java Daksa Budaya information system and compiled the documentation for two nominations: the Tari Remo Munali Patah dance and the Wayang Kulit Gagrak Porongan puppet style. From August to December 2025 another Communication Science intern at Museum Keraton Sumenep helped document its cultural events and guided visiting school groups through the palace's history and collection.

MAJAPAHIT HERITAGE IN TROWULAN

In September 2026 History Education students interned at the East Java Cultural Heritage Preservation Office in Trowulan, taking part in a rescue excavation, archive management and collection care, and made infographics and short videos. A second group wrote guided-visit booklets for junior-high and senior-high visitors at Museum Majapahit. In March 2026 a Graphic Design student redesigned the storyline and information labels of the Majapahit Daily Life Room in Mojokerto Regency.

TEACHING HERITAGE IN SCHOOLS

On 12 and 13 August 2026 the postgraduate Arts and Culture Education programme trained 30 junior-high arts teachers from Ponorogo to write ISBN-registered teaching materials drawn from local heritage: the Babad Ponorogo chronicle, Batoro Katong, the Tegalsari intellectual centre, Reog Ponorogo and the Grebeg Suro festival. In March 2026 a Graphic Design student made the social media campaign Reog di Panggung Media Sosial for the Ponorogo Art Council, to keep Reog, an intangible heritage listed by UNESCO, relevant to young people.

FOLK TALES AND EXHIBITIONS

From 4 August to 1 September 2026 five History Education students ran Dongeng Online with the East Java Provincial Library and Archives Office, retelling the folk tales Cindelaras, Suwidak Loro, Malin Kundang and the Legend of Pulau Senua on Instagram and TikTok. UNESA also showed heritage to the public: the SENGKUNI 7 international art exhibition ran at the Faculty of Languages and Arts from 13 to 17 November 2025, and from 14 February 2026 the student photography unit held a public exhibition of 146 photographs, 86 of them of Surabaya neighbourhoods such as Ampel, Pecinan and Peneleh.

Junior-high arts teachers from Ponorogo work on teaching materials drawn from local heritage in a training run by UNESA's postgraduate Arts and Culture Education programme, August 2026.

GETTING AROUND CAMPUS

Paths, bikes and parking that keep campus life on foot

UNESA's campuses had 57,868 metres of dedicated walking and cycling routes in 2025, and its green and smart campus strategy placed it 28th in Indonesia in UI GreenMetric 2026.

18,339
metres of dedicated pedestrian paths on UNESA campuses in 2025

of more than 2,100 universities in Indonesia, UI GreenMetric, 15 September 2026

THE RULE ON PAPER, THE PATHS ON THE GROUND

The Climate Action Plan circular restricts motor vehicles entering the university and provides pedestrian areas. In 2025 the campuses had 57,868 metres of paths in all: 28,393 metres at Campus 1, 18,976 metres at Campus 2 and 10,500 metres at Campus 5. The 2025 impact report says every path has road markings, pavement or another clear physical form for safety, comfort and accessibility, and that the paths and sheltered links let people walk or cycle between buildings instead of using motor vehicles for short trips. Photographs show a roofed walkway at the Faculty of Mathematics and Natural Sciences and a paved link with a handrail and tactile guiding strip at the Faculty of Education.

BIKES, CHARGING AND PARKING

The Directorate of Smart Sustainability Campus provides electric bicycles for the academic community and has built centralised, multi-storey parking, as the Directorate of Innovation, Ranking and Scientific Publication reported on 18 September 2026. In 2025 the campuses also had electric bicycles provided with PT Migo Anugerah Sinergi and a public electric-vehicle charging station built with Utomo Charge+, which members of the academic community and residents around the campus can use. On 15 September 2026 UI GreenMetric placed UNESA 28th in Indonesia, 15th among state legal-entity universities and 4th among teacher-training universities.

HOW UNESA SUPPORTS GETTING AROUND CAMPUS

MEASURE	WHAT UNESA HAS	WHEN

HOUSING, WORK AND PLANNING

Affordable rooms, a flexible week and planning partners in government

ROOMS STUDENTS CAN AFFORD

UNESA provides student housing through Rusunawa, a low-cost rental flat block run by the university's dormitory unit on the Ketintang campus. Buildings A and B have 96 rooms each for female students, Building C has 48 rooms and Building D 43 rooms for male students: 283 rooms in all, each shared by up to four students. Each room has bunk beds, four study desks and chairs, four wardrobes and a fan. The complex has a prayer room, canteen, 24-hour wifi and parking. Rent is paid only through a dedicated virtual-account system.

A FLEXIBLE WEEK FOR EVERY EMPLOYEE

Since 10 April 2026 all UNESA staff work from the office four days a week and from home on Fridays, under the Rector's circular of 6 April 2026. Attendance is recorded online, including from home. Lecturers can arrange their teaching so that each has one home-working day a week, and unit heads keep most of a unit's staff in the office at the same time. The scheme belongs to wider energy-efficiency measures, among them a minimum 25 degrees Celsius air-conditioning setting and fewer non-essential official-vehicle trips.

WORKING WITH PLANNING OFFICES

On 25 February 2025 the head of the spatial planning division of East Java's housing and settlement office gave Urban and Regional Planning students a guest lecture on regional planning, urbanisation and the use of spatial data in inclusive and sustainable city policy. On 19 May 2025 the students presented their studio proposals to officials of the Public Works and Public Housing Office and the provincial spatial planning division, covering spatial and social analysis and planning proposals for named study areas, and received technical and strategic feedback. From 1 September to 31 December 2025 two Educational Management students interned at the Nganjuk district development planning agency, helping with its development plans and regional data.

NEW BUILDINGS

A faculty in a reused heritage building, and a hospital planned with Bappenas

UNESA's newest faculty moved into an existing heritage-listed building with green practice on site, and its planners worked with the national planning ministry on a university hospital.

A FACULTY IN A REUSED BUILDING

UNESA placed its new Faculty of Food Security, opened in 2025, in an existing heritage-listed building at Kampus 3 on Jalan Prof. Dr. Moestopo in Surabaya, instead of a new site. The Confucius Institute moved to the Lidah Wetan campus from mid-February 2025 to free the building. In February 2025 the faculty's leaders described the agreed building concept as a Smart and Green Heritage Campus, and its field laboratory uses existing UNESA land in Pacet, Mojokerto.

GREEN PRACTICE ON THE SITE

On 24 April 2026 UNESA's UI GreenMetric team visited Kampus 3 and saw air-conditioner condensate water reused to grow hydroponic crops, weeds composted into fertiliser at the Smart Agriculture Techno Park, and livestock manure used as fertiliser and fish feed. In January 2026 the faculty opened 450 places, with research land, a biotechnology laboratory, a food processing laboratory and an aquaculture pilot unit.

PLANNING A UNIVERSITY HOSPITAL

Between 10 February and 8 November 2025 UNESA held coordination meetings with the national planning ministry, Bappenas, and its consultants on the proposal for a UNESA university hospital. The steps included updating the proposal on 18 February, completing Bappenas's forms on 21 February and 2 March, preparing responses to its notes on 10 September, discussing the revised results on 27 September, preparing the detailed engineering design on 16 October and a focus group on the Greenbook planning documents on 30 October.
