# INTERNASIONAL CLASSS UNIVERSITAS NEGERI SURABAYA TAHUN 2021

## Latar Belakang

Kelas Internasional merupakan program S1 dengan orientasi mengarah pada standar internasional yang dimiliki oleh Fakultas Ekonomi dan Bisnis Universitas Negeri Surabaya. Kelas ini menggunakan dua bahasa (bilingual) dalam proses pembelajaran yaitu Bahasa Indonesia dan Bahasa Inggris, namun dengan penekanannya kepada penggunaan Bahasa Inggris. Program kelas internasional mempunyai struktur kurikulum dan pembiayaan yang sama dengan program S1 reguler, sehingga tidak mempunyai perbedaan dengan kelas S1 kecuali pada penggunaan bahasa pengantarnya.

Awal program kelas Internasional diselenggarakan pada tahun 2018 dengan basis penyelenggaraan oleh Fakultas dimana hanya beberapa mata kuliah pilihan yang dijadikan program kelas internasional. Namun mulai tahun ajaran Gasal 2019/2020 kelas internasional terus berkembang, sesuai dengan tuntutan visi dan misi Fakultas dan hasil evaluasi serta masukan yang positif dari pimpinan, dosen serta mahasiswa maka program kelas internasional penyelenggaraanya menjadi berbasis program studi.

Berdasarkan keberhasilan pelaksanaan kelas internasional berbasis program studi pada tahun akademik 2019/2020 maka pelaksanaan program dilanjutkan pada tahun akademik 2020/2021. Seluruh program studi di Fakultas Ekonomi dan Bisnis UNESA memiliki kesempatan yang sama untuk membuka kelas internasional pada semua mata kuliah yang ditawarkan.

## A. Pelaksanaan Pembelajaran Kelas Internasional Semester Genap 2020/2021

Peserta pada kelas internasional semester genap 2020/2021 adalah mahasiswa angkatan 2020 semester 2 (dua), mahasiswa angkatan 2019 semester 4 (empat). Mahasiswa melanjutkan program kelas internasional disesuaikan mata kuliah yang ditawarkan program studi/jurusan masing-masing.

Sesuai dengan ketentuan pada pelaksanaan program kelas internasional, bahasa yang digunakan adalah bilingual namun diutamakan dalam proses pembelajaran dosen menggunakan Bahasa Inggris (minimal 75%). Selain itu adanya ketentuan bahan ajar dan evaluasi (Tugas, UTS dan UAS) menggunakan *Full English*. Kegiatan pembelajaran di kelas Internasional sama dengan pembelajaran kelas reguler di Fakultas Ekonomi dan Bisnis UNESA dimana ketentuan 16x pertemuan (14x tatap muka, 1x UTS , 1x UAS). Metode pembelajaran yang digunakan bersifat kooperatif adanya perpaduan ceramah, diskusi, studi case dan penyelesaian tugas bisa berbentuk individu maupun kelompok. Berjalannya waktu adanya pandemic wabah virus corona mulai bulan Maret 2020 menyerang Indonesia. Kebijakan pemerintah dimana pembelajaran dilakukan secara online juga diterapkan pada kelas internasional di Fakultas Ekonomi dan Bisnis UNESA. oleh sebab itu dosen menggunakan media pembelajaran VINESA, Watshapp, GoogleClasroom ataupun

media online lainnya agar pembelajaran kelas internasional tetap berlangsung. **Tabel 1. Mata Kuliah KIN Genap 2020/2021 Jurusan Akuntansi**

Common types of calendars can be based on the Sun or the Moon. The solar calendar is based on the solar year. Since the solar year is 365.2422 days long, solar calendars consist of regular years of 365 days and have an extra day every fourth year, or leap year, to make up for the additional fractional amount. In a solar calendar, the waxing and waning of the Moon can take place at various stages each month.

The lunar calendar is synchronized to the lunar month rather than the solar year. Since the lunar month is twenty-nine and a half days long, most lunar calendars have alternating months of twenty-nine and thirty days. A twelve-month lunar year thus has 354 days, 11 days shorter than a solar year.

1179 In the university of John Dewey, a sharp distinction is made between "intelligence" and "reasoning". According to Dewey, intelligence is the only absolute way to achieve a balance between reason and reason, between practicality and wisdom of life. Intelligence involves "interacting with other things and knowing them," while reasoning is merely the act of an observer. "... a thing that seems to grasp objects outside the world of things. ... With reasoning, a level of thought partially can be achieved, but it is through intelligence that control is taken of events that shape one's life.

**Q10** - Alzheimer's disease impairs a person's ability to recall memories, both recent and as recent as a few hours before, although there is one and a half for the brain, there may be hope for a cure with a protein called neural growth factor. The protein is produced by nerve cells in the lower regions of the brain, where Alzheimer's occurs. Based on this relationship, scientists from the University of Lund in Sweden and the University of California at San Diego designed an experiment to test whether doses of nerve growth factor could reverse the effects of memory loss caused by Alzheimer's.

According to the passage, where is nerve growth factor produced in the body?

Algae used efficient and ingenious means to travel across water, so that the water where they live are inaccessible to humans, birds, and other land animals with better land eyes. Two different types of eyes have been developed by the fisherman, each constructed to meet specific needs.

The **hagfish** is something like a eel, except that they have no eyes. In fact, it is a primitive organism with one opening in the back of its head, however, some hagfish are made for eyes. However, the lack of a hagfish is combined with organs for the body (or head) for the fish (or hagfish), a hagfish can see in the water and still track up without being with eyes and thinking. One of the primary roles of the hagfish is to be swimming.

It is implied in the passage that, if a hagfish had two eyes, they:

- **Survived - false**
- it would enhance the water.
- it is less likely than a hagfish with one eye.
- it is an eyes for an eel.
- it would be used on the water.
